

Fast-Growing Facade and Structural Engineering Firm Expands Global Presence

Chennai, Tamil Nadu Mar 28, 2025 ([IssueWire.com](https://www.issuewire.com)) - **Integrated Smart Engineers - ISE**, a growing firm in facade design, facade engineering, facade consulting, and structural engineering, continues to expand its services globally. Founded in 2019, **ISE** provides facade engineering solutions for commercial, infrastructure, and industrial projects. The company serves clients in commercial, residential, healthcare, and institutional sectors across different regions.

Engineering Services

ISE specializes in engineering services, including facade engineering and structural engineering, to support construction projects worldwide. The company provides facade design, structural analysis, material selection, performance testing, and project management. With expertise in facade consultancy services, **Integrated Smart Engineers** ensures projects meet industry standards, safety requirements, and sustainability goals.

Key Areas of Expertise

- **Facade Design:** Offers design solutions for building exteriors, focusing on functionality, durability, and energy efficiency. The company works with various facade materials, including glass, aluminum, steel, and composite panels.
- **Facade Engineering:** Provides engineering support for facade systems, ensuring structural stability and thermal performance. The firm applies advanced analysis techniques to optimize facade components.
- **Facade Consulting:** Assists clients with material selection, performance analysis, and compliance with building codes. The firm helps architects and developers choose the right facade systems for different environments.
- **Structural Engineering:** Delivers structural design solutions for commercial buildings and infrastructure. The company focuses on load-bearing structures, seismic performance, and innovative construction methods.

Expanding Global Reach

Integrated Smart Engineers has completed projects in the Middle East, North America, Europe, and Asia-Pacific. The company adapts to local regulations, climate conditions, and industry standards in each region. ISE specializes in facade engineering, consulting, and structural engineering, collaborating with architects, contractors, and developers to provide customized facade engineering solutions, including dedicated facade consultancy services.

Future Growth

ISE continues to expand its expertise in facade and structural engineering and aims to support future construction projects with efficient and reliable facade engineering solutions.

About Integrated Smart Engineers - ISE

Established in 2019 and headquartered in India, **Integrated Smart Engineers - ISE** is a consulting engineering services firm specializing in facade design, facade engineering, facade consulting, and structural engineering. The company provides professional facade solutions for construction projects in commercial, residential, industrial, and institutional sectors worldwide. **ISE** serves clients in the Middle East, North America, Europe, and Asia-Pacific.
