New Delhi, Delhi Feb 22, 2025 ([Issuewire.com](https://www.issuewire.com)) - Securing this Seed funding marks a significant milestone for GreenHRMS, laying a strong foundation for accelerated growth and cutting-edge innovation. With the support of esteemed investors and a dedicated team, GreenHRMS is set to revolutionise HR technology, delivering unmatched value to businesses across the globe.

Funding Announcement

[GreenHRMS](#), a pioneering provider of HRMS and employee monitoring solutions, has successfully raised \$200,000 in its Seed funding round. This round was led by Summit Ventures, with participation from SinGrowth and prominent angel investors. The investment reflects the industry's confidence in GreenHRMS's cutting-edge approach and its potential to redefine HR management and workforce monitoring.

Founders' Statement

Expressing his gratitude, Zishan, Founder of GreenHRMS, stated, "This funding milestone reinforces our unwavering commitment to innovation and customer satisfaction. With this investment, we are poised to expand our reach, integrate advanced AI-driven technologies and continue empowering businesses across industries worldwide."

Investors' Endorsements

Aditya, Summit Ventures: "GreenHRMS has showcased exceptional growth and robust governance. Their vision to serve a global audience and their ability to create high-impact solutions make them an exciting investment. We are delighted to support their journey towards becoming a leading HR technology provider."

Investment Partner, SinGrowth: "As an early investor, I am highly impressed by GreenHRMS's rapid progress. Their solutions effectively address key challenges in workforce performance optimisation—an area of increasing significance for businesses. Their remarkable growth underscores their expertise and market relevance."

Strategic Plans for Growth

With this funding, GreenHRMS is set to accelerate its expansion and technological advancements. Key focus areas include:

Expanding Market Reach: Strengthening presence in new markets to scale operations globally.

Advancing Technology: Integrating generative AI and other emerging technologies to enhance product capabilities and elevate user experience.

Visionary Leadership

Founded by Zishan and his co-founder, GreenHRMS is guided by a leadership team dedicated to leveraging technology to create a people-first organisation. Their mission is to continuously deliver innovative HR solutions that make workforce management smarter, more efficient and impactful.

About GreenHRMS

GreenHRMS is committed to transforming HR management by offering intuitive, innovative and user-centric solutions. Catering to diverse industries, including IT, BPO, BFSI, Education, Media and Telecommunications, the platform helps organisations enhance workplace efficiency and foster an inclusive work culture. Designed for businesses of all sizes, from startups to large enterprises, GreenHRMS ensures seamless HR operations and effective workforce monitoring.

The successful Seed funding marks a pivotal moment for GreenHRMS, laying the foundation for accelerated growth and technological innovation. With strong investor backing and a dedicated team, GreenHRMS is set to redefine HR software, delivering unmatched value to businesses globally.
