

Hélia: The Elite of Madrid Has a New Destination for Regenerative Medicine and Advanced Aesthetics

Madrid, Spain Feb 17, 2025 ([issuewire.com](https://www.issuewire.com)) - High society and the most influential celebrities now have a new sanctuary for rejuvenation and medical excellence in Madrid. Hélia, the premier clinic specializing in regenerative medicine and advanced aesthetics, is redefining luxury in beauty and wellness.

Founded by **Jose Ortiz and Christophe Caron Soriano**, Hélia offers exclusive treatments designed for those who seek **flawless results, cutting-edge technology, and the utmost discretion**. Its select clientele—comprising business magnates, fashion icons, film stars, and royalty—finds in Hélia a sanctuary where aesthetics and medicine merge seamlessly.

As part of its commitment to innovation and excellence, Hélia has formed a strategic alliance with **Regenlab**, a global leader in regenerative biotechnology. Thanks to this collaboration, the clinic provides cutting-edge therapies such as **platelet-rich plasma (PRP) and personalized bioregeneration**, used not only for facial and body rejuvenation but also for injury recovery and degenerative disease treatment.

"Our patients demand the best, the most exclusive, and the most advanced in regenerative

medicine. At Héliá, we offer treatments designed to preserve and enhance natural beauty, delivering sophisticated and harmonious results," explain founders Jose Ortiz and Christophe Caron.

Under the direction of **Dr. Alba Ruiz (Col. 282876576)**, Héliá combines **state-of-the-art technology with a highly personalized and confidential service**, ensuring that every treatment exceeds the expectations of its distinguished clientele.

With its arrival in Madrid, **Héliá positions itself as the ultimate destination for those who demand the best in cellular regeneration and luxury aesthetics, setting a new standard in the industry.**
