

Industry Leader in Aviation Safety & Regulations, Sean Cassidy, Joins AirGyde as Board Advisor

New York City, New York Mar 28, 2025 ([IssueWire.com](https://www.IssueWire.com)) - [AirGyde](#), a pioneering company shaping the future of airspace mobility, is proud to announce that [Sean Cassidy](#), a renowned aviation safety and regulatory leader, has joined its **Board of Advisors**. Cassidy's extensive experience in aviation operations, safety, and regulatory affairs will be instrumental in guiding AirGyde's strategic initiatives as it introduces innovative approaches to integrate drones into the National Airspace System (NAS).

Cassidy, a former **Director of Safety, Flight Operations and Regulatory Affairs at Amazon Prime Air**, has been at the forefront of integrating emerging aviation technologies into the national airspace. Before his tenure at Amazon, he served as **First Vice President and National Safety Coordinator** for the Air Line Pilots Association (ALPA), advocating for industry-wide aviation safety and operational standards. Most recently, Cassidy was appointed **VP of Regulatory and Government Affairs at AIBOT**, where he leads policy efforts for advanced aerial mobility solutions.

"Sean's expertise in aviation policy, flight operations, and safety makes him an invaluable asset to AirGyde as we work to enable seamless and scalable drone integration," said **Nadeem Saeed**, Founder and CEO of AirGyde. "His deep understanding of regulatory frameworks and autonomous flight operations will help shape the future of our UTM systems and ensure we remain at the forefront of the industry."

AirGyde is developing cutting-edge solutions to enable the **safe, efficient, and scalable operation of unmanned aerial systems (UAS)**. With Cassidy's guidance, the company aims to navigate complex regulatory landscapes and forge industry partnerships to accelerate the adoption of drone highways.

"I'm excited to join AirGyde's Advisory Board at this pivotal moment for autonomous aviation," said **Sean Cassidy**. "The company has an exciting and unique approach to safely promoting intelligent airspace management- essential to unlocking the full potential of advanced aerial mobility. I look forward to contributing to this transformative journey."

With Cassidy's appointment, AirGyde strengthens its commitment to **innovative, safety-driven solutions that will define the next generation of airspace mobility**.
