

John Byun: A Renowned Clinical Instructor in Radiation Oncology at Stanford Health Care

Innovative Radiation Therapy Expert Enhances Patient Care at Stanford Health Care

New York City, New York Feb 24, 2025 ([Issuewire.com](https://www.issuewire.com)) - Dr. Byun continues his impactful work as a Clinical Instructor in Radiation Oncology, further enhancing the institution's dedication to providing exceptional cancer care. With a robust background in radiation therapy and a commitment to patient-centered treatment, he plays an integral role in the advancement of innovative therapeutic techniques at Stanford Health Care.

The doctor's academic credentials are impressive; he earned his medical degree from the University of Illinois at Chicago College of Medicine in 2014, followed by a transitional year internship at Loyola Medicine MacNeal Hospital in Illinois. He completed his residency in Radiation Oncology at the prestigious Robert Wood Johnson University Hospital in New Jersey in 2019.

Dedicated to clinical excellence, the doctor is board-certified by the American Board of Radiology in Radiation Oncology since 2021.

In addition to his clinical responsibilities, Dr. Byun is actively engaged in academia as a Clinical Instructor at the Stanford School of Medicine, where he is dedicated to training the next generation of radiation oncologists. He is a member of esteemed professional organizations, including The Radiosurgical Society (RSS) and the American Society for Radiation Oncology (ASTRO), highlighting his commitment to ongoing professional development and adherence to the highest standards of care.

Dr. Byun specializes in various forms of radiation therapy, including advanced modalities such as 2D, 3D Conformal Radiation Therapy (3DCRT), Intensity-Modulated Radiation Therapy (IMRT), Image-Guided Radiation Therapy (IGRT), Volumetric Modulated Arc Therapy (VMAT), Tomotherapy, Total Body Irradiation (TBI), Total Lymphoid Irradiation (TLI), Total Skin Electron Beam Therapy (TSET), and sophisticated 4D and OSMS radiosurgery techniques. His proficiency in Stereotactic Radiosurgery (SRS), Stereotactic Ablative Radiotherapy (SABR), and Stereotactic Body Radiotherapy (SBRT) positions him at the forefront of radiation oncology, ensuring that patients receive the most effective and tailored treatment options available.

His dedication to advancing the field of radiation oncology while providing compassionate care is a testament to Stanford Health Care's mission of improving patient outcomes through innovation and expertise. His continued presence at Stanford not only enhances the institution's capabilities but also ensures that patients benefit from the latest advancements in cancer treatment.
