Bengaluru, Karnataka Mar 4, 2025 (Issuewire.com) - LTC Original, a pioneer in health-focused food products, is proud to introduce its revolutionary Diabetic-Friendly White Rice—a game-changer for individuals looking to manage their blood sugar levels without giving up the comfort of traditional white rice.

This innovative rice variety is scientifically formulated to have a lower glycemic index (GI), making it a healthier alternative for diabetics and health-conscious consumers. Unlike regular white rice, LTC Original Diabetic-Friendly Rice helps in maintaining steady blood sugar levels, making it an ideal choice for a balanced diet.

Speaking about the launch, Shyamala MP, Founder of LTC Original, said:
"Our goal is to provide a solution for millions of rice lovers who struggle with dietary restrictions. With LTC Original, we are bringing a rice variant that is both delicious and health-friendly, ensuring that people can enjoy their favorite meals without compromising their well-being."

LTC Original is also expanding its reach by offering franchise opportunities for standalone stores specializing in diabetic-friendly rice and other health-focused products. This initiative aims to empower entrepreneurs while making healthy food options more accessible across India.

About LTC Original

LTC Original is committed to promoting healthier food choices by offering innovative, nutrition-focused products. The brand focuses on scientific advancements in food technology to cater to people with dietary restrictions, ensuring taste and health go hand in hand.

LTC Original's Diabetic-Friendly White Rice is now available for purchase select retail outlets or [click here](#) for online purchase.
