

Luminous Expands Its Window tint Line to Include New Carbon Window Film

Dubai, United Arab Emirates Feb 3, 2025 ([Issuewire.com](https://www.issuewire.com)) - [Luminous](#), a trusted name in premium automotive care, is excited to introduce Luminous Carbon Window Film, the newest addition to its growing lineup of high-performance window tints. Designed to offer durability, comfort, and style, this advanced carbon-infused film provides superior heat rejection, UV protection, and a sleek, non-reflective look—making it the perfect alternative to traditional window tints.

“We at Luminous understand that every consumer is unique,” stated W. Mari, sales director of Luminous. We’re making sure our partners have both since some of their clients want carbon and some prefer ceramic. It all comes down to providing our partners with the best solutions for their auto detailing business.

Why Luminous Carbon Window Film Stands Out

Unlike standard dyed films, [Luminous Carbon Window Film](#) is packed with advanced carbon technology that prevents fading and discoloration over time. This means a deep, rich color that lasts, along with consistent performance. Here’s what makes it special:

Keeps Vehicles & Buildings Cooler – Blocks solar heat, creating a more comfortable interior.

Protects Against Harmful UV Rays – Shields skin and prevents interior materials from fading.

Reduces Glare – Cuts down on harsh sunlight and headlight glare for safer driving.

Boosts Privacy – Keeps prying eyes out while maintaining visibility from the inside.

Enhances Safety – Strengthens glass by helping hold shattered pieces together upon impact.

Energy Efficient – Helps lower cooling costs by reducing heat buildup.

Resists Fading & Discoloration – Carbon-infused material stays vibrant for years.

Scratch-Resistant – Designed for long-lasting durability and a flawless appearance.

More Choices for Professionals and Car Owners

Luminous Carbon Window Film is the perfect complement to Luminous Ceramic Window Film, giving professionals and car owners the flexibility to choose the tint that best suits their needs. Whether the priority is the superior heat rejection of ceramic or the long-lasting, stylish appeal of carbon, Luminous has them covered.

“We’re always looking for ways to make life easier for our customers,” added W. Mari. “Expanding our window tint lineup gives them even more ways to find the perfect balance between performance and style.”

Committed to Excellence in Car Care

Luminous has been pushing the boundaries of automotive care. From top-quality waxes and cleaning chemicals to premium paint protection and window films, Luminous is dedicated to helping professionals and car owners keep their vehicles looking their best. The launch of Luminous Carbon Window Film is just another step in the brand’s mission to provide cutting-edge, high-performance auto detailing products.
