

Newtimes Hair Opens New U.S. Facility to Bring Premium Hair Systems and Seamless Services to Salons Owners Nationwide

Premium Hair Systems Now Delivered Directly to Salons Nationwide from Newtimes Hair's Los Angeles Warehouse, and U.S. salons can expect faster delivery and say good-bye to customs hassles

Los Angeles, California Feb 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - *Newtimes Hair*, a leading global manufacturer of high-end hair replacement systems, wigs, extensions, and toppers, proudly announces the opening of its first U.S. facility. This new location is set to transform the experience for U.S.-based salons and hair replacement studios. With faster delivery, zero customs delays, and unbeatable customer support, Newtimes is making it easier than ever to access the finest hair solutions on the market.

The new branch will be operating under the name **New Times Pacific (NTP)**, in Los Angeles. Its much-anticipated ribbon-cutting ceremony will kick off the launch of the facility. Featuring a festive atmosphere with delightful cold dishes, finger foods, and champagnes, the event will celebrate the opening of this

state-of-the-art facility that houses an office, conference rooms, a showroom, and a fully equipped distribution warehouse. The new location ensures that U.S. salons receive their orders more promptly, all while maintaining the same factory-direct prices that have made Newtimes Hair a trusted name in the beauty industry.

“We’re thrilled to offer our clients in the United States much faster delivery times without the hassle of dealing with customs complications,” said *Roberto*, Branch Manager at NTP. “Having our local facility is a huge step forward in providing a seamless experience for our U.S. customers.”

The new facility marks a major milestone in Newtimes Hair’s continued dedication to improving communication, transparency, and overall client satisfaction. “With a U.S.-based team, we’ve broken down the language and cultural barriers that sometimes made it difficult for our customers to communicate with us,” said *Niki Mei*, General Manager of Newtimes Hair. “We are proud to now offer our clients the comfort of working directly with a local team”

Salon owners, like *Callum*, one of Newtimes’ longtime partners, are particularly excited about the shift. “Before this, I had to travel to China once a year to visit the factory, and dealing with time zone differences was always a challenge. Now, everything will be so much easier. I can contact the team directly, schedule site visits, and get answers immediately. It’s going to make a huge difference in how we operate,” said Callum.

The new facility ensures that Newtimes Hair’s U.S. clients receive exactly what they see on-site, reinforcing the company’s unwavering commitment to quality, reliability, and transparency. Along with its premium products, the brand is staying true to its mission by maintaining competitive, factory-direct pricing, ensuring that customers enjoy the same great value while benefiting from more convenient local services.
