Experienced and Dedicated Specialists

An experienced and dedicated team of highly qualified professionals, including doctors, embryologists, and counsellors, aid the functions of the fertility clinic to ensure successful hormone regrowth and source to all its patients.

High Success Rates and Positive Outcomes

With years of experience and numerous successful cases, PHS Fertility Clinic has proudly given life to many families and has succeeded in behaving very well in treating infertility.

Comprehensive Support Beyond Treatment

At PHS Fertility Clinic, we understand that fertility treatments extend beyond medical procedures. Our team support patients in the psychological emotional as well as lifestyle terms for those difficult decisions they have to face.

Our nutritional experts will guide patients through diets and lifestyle choices specifically to enhance fertility health. Moreover, vital patient education is supplied by the clinic from time to time, thereby constantly updating couples about their options, advancement in fertility treatment, and their real chances.

PHS Fertility Clinic believes in a totally holistic perspective that goes beyond just reproduction to improve the quality of life. By giving every couple a comprehensive support system, we take it for granted that they will feel completely empowered, admired, and full of bright hope in their fertility journey with us. We seek the dream for many-ludicrous, that is, being parent-and many times anyway, make it a reality.

Patient Success Stories

Our satisfaction as a team at PHS Fertility Clinic comes from hearing the great number of successful parenting stories of a couple working their way to parenthood with our support. Many patients generously share their experiences, encouraging others to approach fertility treatment ownership in confidence and hope.

"Our goal is to take couples on a journey through fertility equipped with compassion, knowledge, and the last in medical technology," says Dr Prajnanika Gurung, Director of PHS Fertility IVF & Womencare.

"Infertility can be strenuous, both physically and emotionally, so we work towards a caring, supportive, and relatively stress-free environment for our patients."
