

Proaxis Solutions Launches Comprehensive Digital Forensic Services to Combat Cybercrime

Proaxis Solutions launches comprehensive digital forensic services, including forensic acquisition, email forensics, mobile forensics, and cloud forensics to help businesses combat cybercrime.

Bengaluru, Karnataka Feb 25, 2025 ([Issuewire.com](https://www.issuewire.com)) - Proaxis Solutions Announces Expanded Digital Forensic Services to Meet Growing Cybersecurity Demands

In response to the rising need for sophisticated digital investigations, [Proaxis Solutions](https://www.proaxis.com), a leader in [forensic](#) and [cybersecurity services](#), is proud to announce the launch of a fully expanded suite of [digital forensic services](#). This move is set to help organizations safeguard their digital environments and recover critical evidence in an increasingly complex cyber landscape.

With a focus on delivering results that meet both technical and legal standards, **Proaxis Solutions** now offers the following services under its **Digital Forensics** division:

- **Forensic Acquisition:** Secure and comprehensive recovery of digital data from computers, mobile devices, and storage media, preserving evidence without altering its integrity.
- **Data Forensics:** In-depth analysis of structured and unstructured data to uncover hidden, deleted, or compromised information critical to investigations.
- **Email Forensics:** Tracking [email communication](#) trails, recovering deleted emails, and identifying phishing or spoofing attacks to provide clear evidence of digital fraud or miscommunication.

- **Mobile Forensics:** Expert extraction and analysis of data from smartphones, tablets, and other mobile devices, providing insights into messaging, call logs, location data, and more.
- **Registry and Browser Forensics:** Detailed investigation of browser history, internet activity, and Windows registry to identify security breaches, unauthorized access, or tampering.
- **Network and Cloud Forensics:** Specialized forensic services that monitor, analyze, and secure network data traffic and cloud storage environments, addressing internal and external threats.

"Our expanded **digital forensic services** cover all critical areas required for a thorough investigation. From forensic acquisition to cloud forensics, we ensure that businesses and legal teams have the tools they need to make data-driven decisions," said [Senthil Kumar], [Chief Operating Officer] of **Proaxis Solutions**. "We combine cutting-edge tools with deep expertise to ensure the integrity of the evidence collected and provide results that hold up in court."

Proaxis Solutions' **digital forensics** team uses advanced tools to conduct investigations across a variety of devices and environments, from traditional computer systems to mobile devices and cloud platforms. By providing legally sound evidence and comprehensive reporting, Proaxis Solutions is helping organizations combat cybercrime and ensure the security of their digital assets.

Proaxis Solutions has become a trusted name in **digital forensics**, offering critical support for businesses, law enforcement agencies, and legal professionals.
