

# RadiusPoint Revolutionizes Telecom Expense Management with ExpenseLogic

The screenshot shows the ExpenseLogic website. At the top, the ExpenseLogic logo is on the left, and navigation links for LOGIN, ABOUT, OPTIONS, FEATURES, and CAPABILITIES are on the right. Below the navigation is a dark blue banner with the text: "EXPENSELOGIC IS A ROBUST, FEATURE PACKED SOFTWARE THAT INCLUDES THE FOLLOWING CAPABILITIES:". Underneath this banner are four columns, each with an icon and a title: 1. Accounts Payable (document icon): "Allocation of charges by Cost Center number, Location number or both is available with ExpenseLogic. Cost Accounting for special projects or contractors is available for accounts processed on a monthly basis. Remittance reports and creation of checks with remit to address printing and reporting is also available." 2. Wireless Management (phone icon): "ExpenseLogic Wireless Management software manages your wireless device, invoices and vendor orders in one area. E-bonding with the vendor to order new services follows through to the set up of the new number and device for proper Cost Allocation the very first month of billing." 3. Asset Management (calculator icon): "Managing your wireless devices, routers, PBX systems, Cloud devices has never been easier with ExpenseLogic's Inventory Database. Housing the equipment by Cost Center or location number or Employee ID with serial number and lease payment and maintenance contracts ties the Accounting side to the Asset Management side." 4. Contract Management (document icon): "Contract Management is easy with ExpenseLogic's Contract Management database. The Contract Management database ties the service or devices and equipment with the contract and gives the capability to view the actual contract document. Email notification 90, 30 and 30 days prior to expiration ensures that your contract expirations won't be missed."

**Casselberry, Florida Jan 10, 2026 ([IssueWire.com](http://IssueWire.com))** - RadiusPoint, a leading provider of intelligent expense management solutions, announces a groundbreaking approach to Telecom Expense Management (TEM) through its cutting-edge ExpenseLogic software. With over 30 years of expertise in the industry, RadiusPoint empowers businesses to streamline telecom cost management, optimize spending, and enhance operational efficiency.

## Unmatched Telecom Expense Management

ExpenseLogic offers an all-in-one platform designed to manage the entire telecom expense lifecycle. Organizations leveraging ExpenseLogic experience an average cost reduction of over 30% in the first year, as reported by Gartner Research. The platform automates invoice processing, audits expenses, identifies billing errors, and provides real-time analytics, making it the most detailed TEM solution in the industry.

## Comprehensive Lifecycle Management

ExpenseLogic simplifies the complex telecom expense process through a seamless Software-as-a-Service (SaaS) framework, covering:

- **Order Placement**
- **Installation Verification**
- **Invoice Receipt & Cost Allocation**

- **Invoice Auditing & Cost Optimization**
- **Automated Payments**

In addition, ExpenseLogic extends its capabilities into **Information Technology Asset Management (ITAM)**, offering businesses full control over telecom assets.

### **Key Functionalities & Benefits**

With four core functionalities—Invoice Management, Audit & Optimization, Inventory Management, and Reporting & Analytics—ExpenseLogic provides a data-driven approach to telecom cost management, offering:

- **Significant cost reductions** by identifying billing discrepancies and eliminating waste.
- **Optimized vendor management** for enhanced service efficiency.
- **Improved financial control** through real-time reporting and analytics.
- **Streamlined procurement** of telecom equipment and assets.
- **Elimination of legal liabilities** with compliance-integrated approval processes.

### **Driving Business Growth Through Telecom Optimization**

ExpenseLogic enables businesses to reduce labor-intensive invoice processing, avoid late fees, recover overcharges, and make informed, data-backed decisions to drive long-term financial sustainability. By consolidating TEM, ITAM, and expense audit functions into a single platform, RadiusPoint's solution delivers maximum ROI and cost avoidance strategies.
