

She Republic: A New Digital Haven for Women to Share, Heal, and Thrive

Launching on International Women's Day 2025

New Delhi, Delhi Mar 21, 2025 ([Issuewire.com](https://www.Issuewire.com)) - Women across the country will soon have a space where their voices are heard, their struggles acknowledged, and their ambitions supported—without barriers. [She Republic](#), a first-of-its-kind digital platform, officially launches on March 8, 2025, offering women a safe and empowering space to share their stories, seek legal and psychological support, and build skills—all at zero cost.

Founded by **Oindrila Dasgupta**, a single mother of two, and a professional who has navigated her own journey of resilience, She Republic is more than a platform—it is a movement. Recognising the systemic challenges women face, from social stigma to financial dependence, She Republic aims to create **a community where no woman has to fight alone.**

A Zero-Margin Marketplace for Women Entrepreneurs

In addition to legal and psychological support, She Republic will introduce a **zero-margin marketplace** exclusively for women artisans and entrepreneurs from **SEC C, D, and E** backgrounds from all over the country. This initiative will ensure that sellers retain complete control over their inventory while buyers cover shipping costs, creating a **fair, transparent, and sustainable economic opportunity.**

The Tech Behind the Mission

Powering this bold initiative is **Annisha Jain**, the tech visionary behind She Republic. With her expertise, the platform is designed to be **secure, intuitive, and accessible**, ensuring women from all walks of life can navigate and benefit from its resources with ease.

“Women’s stories deserve to be told, their struggles deserve to be seen, and their aspirations deserve to be supported—without conditions. We will bring unheard stories—stories that time usually erases, but this time, we won’t let them fade. We celebrate an **Indra Nooyi** as much as a **Laro Jonko**, as much as our grandmother who sacrificed a great deal for us. If you have a story to tell, a mental health crisis to stride through, or a legal issue to be resolved, we are here—with open ears, open eyes, and open hearts.”

Join the Movement

As She Republic prepares to launch on **International Women’s Day, March 8, 2025**, it invites every woman to step forward, join hands, and reclaim their narratives—not as victims of circumstance, but as **architects of their own destiny.**
