

Sivatech Expands Forklift Training Programs to Strengthen Workplace Safety and Compliance

SIVATECH
Connecting Potentials

Buckingham, Buckinghamshire Mar 21, 2025 ([IssueWire.com](https://www.issuewire.com)) - Sivatech, a trusted leader in forklift training and safety certification, is proud to announce its expanded range of forklift training courses. Designed in accordance with the Approved Code of Practice, these ITSSAR-certified courses ensure that both individuals and businesses receive high-quality training that meets the highest safety and compliance standards.

With workplace safety and efficiency being top priorities, Sivatech's forklift training programs are structured to equip operators with the essential skills and knowledge required for safe forklift handling. Each course accommodates up to three candidates per session, following the strict regulations established by the Health & Safety Executive (HSE).

For those searching for a [forklift course near me](#), Sivatech offers accessible and hands-on training tailored to meet diverse industry needs. Whether you are an individual seeking certification or a company looking to enhance workforce safety, our expert trainers provide practical, in-depth instruction that ensures compliance with national safety standards.

"Our mission is to deliver top-tier forklift training that not only meets regulatory requirements but also prioritizes workplace safety and operational excellence," said at Sivatech. "With our ITSSAR-certified courses, participants gain both theoretical knowledge and hands-on experience, ensuring they are well-prepared for real-world operations."

Sivatech remains committed to improving industry safety through expert-led training programs. Businesses and individuals interested in enrolling in forklift courses can visit <https://www.sivatech.co.uk/> for more details.

About Sivatech
