

SpecStudio Expands Architectural Specification Expertise with NBS Chorus and Global Consultancy Services

The SpecStudio logo is displayed in a large, black, sans-serif font. The text "SpecStudio" is centered within a light orange rectangular background. The final character of the word "Studio" is a stylized square bracket "]", which is slightly larger and more prominent than the other letters.

London, United Kingdom Mar 27, 2025 ([IssueWire.com](https://www.issuewire.com)) - SpecStudio, a leading provider of architectural specification consultancy, has announced enhanced services to support architects and construction professionals in delivering precise, compliant, and sustainable building documentation. Specialising in NBS Chorus and international specification services, the firm combines cutting-edge technology with industry expertise to streamline project workflows.

Bridging Design and Compliance with NBS Chorus

As adoption of [NBS specification](#) software grows, SpecStudio's team of specification consultants offers tailored support for practices using the platform. With thousands of hours of experience in NBS Chorus, the team provides:

- **Custom Specification Writing:** Preparation of Uniclass or CAWS formatted documents aligned with project requirements.
- **BIM Integration:** Linking specifications to Building Information Modelling (BIM) data for real-time updates and consistency.
- **Content Migration:** Seamless transition to Uniclass 2015 standards, as demonstrated in projects like HOK's Gateshead Quays development.

Global Reach, Local Expertise

SpecStudio's international spec writing services cater to practices worldwide, addressing diverse regulatory and sustainability standards. From the UK to Europe and beyond, the team adapts specifications to local building codes, material availability, and procurement processes. Recent projects include:

- **Sustainable Design:** Incorporating eco friendly materials and energy-efficient practices.
- **Procurement Clarity:** Defining responsibilities to reduce risks during contractor negotiations.

Training and Support for In House Teams

SpecStudio now offers [specification training](#) programmes. These sessions empower architects to:

- Master NBS specification tools and Uniclass standards.
- Align documentation with BIM workflows.
- Avoid common pitfalls in material selection and compliance.

Why Architects Trust SpecStudio

- **Adaptability:** Services span all design stages, from outline specs to tender documentation.
- **Technology-Driven:** Cloud collaboration and AI-assisted compliance checks.
- **Proven Frameworks:** Pre-written "SpecStudio Masters" to accelerate drafting.

Looking Ahead

With demand rising for precise, digital-first specifications, SpecStudio plans to expand its [architectural design consulting](#) services in 2025.

About SpecStudio

SpecStudio is a UK based consultancy specialising in architectural specification writing, training, and BIM integration. Serving clients globally, the team ensures projects meet regulatory, sustainability, and design goals.
