

The AEC Associates Leverages Autodesk AEC Collection to Drive Innovation and Efficiency in the AEC Industry

The AEC Associates, a leading provider of design documentation and BIM solutions, utilizes the Autodesk AEC Collection to enhance efficiency, accuracy, and collaboration across the Architecture, Engineering, and Construction (AEC) industry.

Noida, Uttar Pradesh Mar 4, 2025 ([Issuewire.com](https://www.issuewire.com)) - The AEC Associates, a leading provider of design documentation and BIM solutions, has been utilizing the Autodesk AEC Collection to enhance efficiency, accuracy, and project collaboration across the **Architecture, Engineering, and Construction (AEC) industry**. Their commitment to integrating cutting-edge technology has enabled them to optimize workflows, reduce costs, and accelerate project delivery.

With over 12 years of industry experience, The AEC Associates has been trusted by more than 250 AECO companies, offering end-to-end Architectural, Interior, Structural, and MEPFP Design Documentation and Sustainability Consulting services. Their 200+ skilled professionals leverage Autodesk's powerful suite of tools, including Revit, AutoCAD, Navisworks, and more, to deliver precise, high-quality solutions to architecture, engineering, and construction firms of all sizes.

Driving Excellence with Autodesk AEC Collection

The AEC Associates has leveraged Autodesk AEC Collection to streamline workflows by integrating Revit, AutoCAD, and Navisworks, enhancing design collaboration and efficiency. Advanced modeling tools improve project visualization and stakeholder communication, while comprehensive MEPFP and Structural Design Documentation ensures compliance with industry standards.

Shalini Kaushal, Director of Operations, The AEC Associates, says, "We chose the Autodesk ACC collection, as it allowed us to leverage the tremendous benefits of bulk purchasing for our big team size while providing us the flexibility to customize our services in order to meet our client needs effectively and efficiently. The Autodesk ACC collection featuring cornerstone tools such as AutoCAD, Revit and Navisworks has been instrumental in elevating our workflow efficiency and enhancing the quality of deliverables."

About The AEC Associates

The AEC Associates is a trusted design support services provider specializing in BIM & CAD documentation for architecture, interiors, engineering, and construction firms. With a deep domain expertise spanning 12+ years, their team of 200+ professionals delivers high-quality, cost-effective solutions tailored to meet the unique challenges of the AEC industry worldwide.
