

Travlo - World's First AI Travel Agent

Find it, create it, plan it, lock it, and book it

Travlo

Bengaluru, Karnataka Feb 6, 2025 ([Issuewire.com](https://www.issuewire.com)) - Travlo, an AI-powered trip planner, has officially launched, offering travelers a smarter way to organize their journeys. By leveraging artificial intelligence, Travlo suggests destinations, creates personalized itineraries, and optimizes travel budgets, reducing the time spent on trip planning.

With real-time AI recommendations, Travlo analyzes user preferences, travel costs, and weather conditions to generate tailored itineraries. The platform aims to enhance the travel experience by automating complex planning tasks, making trip organization more efficient.

Key Features of Travlo:

- **AI-Powered Itineraries** – Automatically generates personalized trip plans based on budget, preferences, and travel dates.
- **One-Click Booking Cart** – Allows travelers to add flights, hotels, and activities in a single transaction.
- **Budget Optimization** – Adjusts trip costs dynamically to align with budget constraints.
- **Group Planning Tools** – Enables group members to collaborate, vote on plans, and track expenses.
- **Real-Time Destination Feed** – Provides continuously updated travel recommendations.
- **Bus Booking & Cancellations** – A flexible option for travelers seeking ground transport.

- **AI Credits** – A reward system allowing users to unlock premium planning tools.
- **Smart Notifications** – Alerts for flight changes, weather updates, and trip reminders.
- **Experiences Feed** – A platform for travelers to share and explore AI-curated travel moments.

"Our goal with Travlo is to make travel planning effortless. AI eliminates the hassle of research and manual itinerary creation, giving travellers more time to enjoy their journeys," said Sayeed Afzal, CEO of Travlo.

Travlo is now available for use worldwide. For more information, visit travlo.io
