

ALL- KALKI: A Global Awakening Initiative Rooted in PASSIONIT PRUTL Framework (ALLKALKI)

AIDHARMA to help AI Producers and Consumers build Ethical AI Products and Service Models. First of its kind universal framework to Awaken people about Positive and Negative Soul, Positive and Negative Materialism

Pune Cantonment, Maharashtra Mar 26, 2025 ([Issuewire.com](https://www.issuewire.com)) - ALL-KALKI: A Global Awakening Initiative Rooted in PASSIONIT PRUTL Framework

A Historic Milestone for Human Consciousness & AI Ethics

Dr. Prakash Sharma, founder of the **PASSION FRAMEWORK** and **PCOMBINATOR**, proudly announces the launch of **ALL-KALKI**, a transformative initiative aimed at aligning **entrepreneurship, AI governance, and human consciousness** toward a unified path of self-awareness and peace. This **Made in India** framework, decades in the making by Dr Prakash Sharma, integrates **Sanatan Dharma and multiple religious philosophies** into a **single, structured system for soul-searching, purpose-driven growth, and global peace**.

The Evolution of PASSION FRAMEWORK & PCOMBINATOR

The **PASSION FRAMEWORK** began as a conceptual model in **1996**, evolving into a structured framework in **2013** and gaining global recognition through its impact on **entrepreneurship, AI, and governance**. **PCOMBINATOR**, its **applied research arm**, has been recognized by **UBI Global, Villgro IMPACT research from Harvard Business School and Chicago Business School** for its contributions to **startup ecosystem development and industry-academia collaborations**.

A unique aspect of this journey was the **storytelling approach to entrepreneurship**, which earned the **Best Social Media Innovation Award (2015)**. This method empowered aspiring entrepreneurs by blending **traditional wisdom with modern business strategies**, creating tools and frameworks that drive real-world impact. Over **150+ students** have applied these principles to develop **innovative tools** supporting startup ecosystems and have huge enthusiasm from over 1000+ senior mentors since 2019 and every attempt is being made to make this initiative an inclusive one

Why ALL-KALKI?

ALL-KALKI serves as a **call to action for individuals and organizations** to engage in **soul-searching, self-improvement, and ethical AI development**. It brings together multiple disciplines—**spirituality, AI, governance, and business**—into a **single ecosystem** designed to **improve human and organizational quality**.

Launching on the auspicious occasion of **Gudi Padwa, Navratri, and Ramazan Eid**, this initiative carries blessings from **Lord Krishna, Guru Nanak, Jesus Christ, and other divine forces**. The name **ALL-KALKI** symbolizes a **unified existence beyond religion, caste, color, and creed**.

A Self-Sustaining, Neutral Initiative

Unlike many global initiatives, ALL-KALKI remains self-supported through PCOMBINATOR's bootstrapped approach, mentor goodwill, and community participation. It relies on the principles of self-reliance and self-sufficiency, ensuring neutrality and inclusivity. **PASSIONIT AUDIT** framework is an optimized cost-effective solution for SME/MSME/ Franchisor's who wish to improve their process and many developing countries thought leaders can integrate this within their country process improvement initiatives too as it helps to audit almost any thought leader too.

The Awakening Begins

With **AI governance, large language models (LLMs), and AI-driven ethics** forming the foundation of this initiative, ALL-KALKI is set to redefine **human potential, startup ecosystems, and ethical AI development**. Special thanks go to **academicians, students, mentors, industry leaders, and well-wishers** who have supported this **historic movement toward global peace and innovation**.
