

axiusSoftware Partners with Unbiasly to Revolutionize AI-Driven Talent Management

kolkata, West bengal Mar 8, 2025 ([Issuewire.com](https://www.issuewire.com)) - [axiusSoftware](https://www.axiussoftware.com), a leading software development and digital consulting company, has joined forces with [Unbiasly](https://www.unbiasly.com), an AI innovator, pioneering transformative solutions in talent attraction and retention. This team-up aims to develop a revolutionary **Applied AI** that eliminates bias in hiring, promotion, and training, ensuring organizations make fair, data-driven, and objective decisions.

Together, they aim to disrupt talent management by integrating **Augmented Intelligence**—a powerful branch of **Artificial Intelligence (AI)**—which tactfully enhances decision-making, increases efficiency, and creates fair and inclusive workplaces. Through Unbiasly's Human Resources experience and axiusSoftware's technical prowess, the AI product will provide businesses with a ground-breaking, data-driven tool that ensures hiring, promotion, and training decisions are based on merit rather than unconscious bias.

By expertly weaving advanced **machine learning algorithms, LLMs and proprietary data**, the AI-based product will provide organizations with unparalleled accuracy in talent assessment, succession and workforce planning, that fosters workplaces with diverse minds, bringing better business outcomes.

This **game-changing product** (www.nurasuite.com) is not just another AI recruitment tool—it goes beyond automation to create meaningful, bias-free hiring solutions. By blending AI's computational power with human intuition and ethical oversight, the solution ensures organizations can make smarter, more inclusive, and data-backed talent decisions while candidates always get that human touch.

"Unconscious bias continues to affect talent acquisition and career progression across industries. By harnessing AI and respecting human nature, we are giving businesses the ability to implement fair, objective hiring and promotion practices that drive innovation, diverse minds, and long-term success," said [Amerish Patel](#), **Founder and CEO of Unbiasly**.

With over a decade of experience in enterprise software development, **axiusSoftware brings its deep technological expertise to this transformative initiative. The company is committed to creating AI-driven solutions** that address real-world challenges and promote workplace equity.

"At axiusSoftware, we believe that technology should empower businesses to build stronger, more

diverse teams. This partnership with Unbiasly allows us to develop an AI-powered product that not only enhances hiring efficiency but also fosters a culture of inclusivity and equal opportunity,” said [Jayanta Nandy](#) and [Kiki Li](#), Co-Founders of axisSoftware.

As businesses increasingly adopt digital transformation strategies, the demand for **AI-driven solutions** is growing. This partnership between **axisSoftware and Unbiasly** aims to set a new industry standard by providing businesses with the tools they need to eliminate bias and promote better solutions through diverse thinking.

The Alliance between **axisSoftware and Unbiasly** marks the beginning of a new era in AI-powered, fair, and inclusive talent management.
