

Beacon Now Helping Housecall Pro Users Streamline, Automate, and Grow

Now offering expert Housecall Pro consulting, setup, pricebook builds, and workflow automation for HVAC, plumbing, and electrical contractors.

Bismarck, North Dakota Mar 29, 2025 ([IssueWire.com](https://www.issuewire.com)) - Beacon, a leading home service and construction software consulting firm, is proud to announce an official partnership with Housecall Pro, a top-rated field service management platform trusted by over 30,000 home service professionals.

This partnership empowers Beacon to provide even deeper support to contractors using Housecall Pro, [including expert onboarding, workflow automation, pricebook building, and long-term system optimization](#).

“Housecall Pro is a powerful platform, but too many contractors never unlock its full potential,” said James, PR Representative of Beacon. “We’re excited to partner with Housecall Pro to help service businesses get more out of their software—more efficiency, more profit, and less chaos.”

As a Housecall Pro Authorized Partner, Beacon delivers tailored consulting services designed specifically for the trades, combining real-world experience with deep software knowledge. From CRM setup and inventory workflows to staff training and automation, Beacon helps contractors modernize their operations without the overwhelm.

Key Services Include:

- Platform onboarding and optimization
- Pricebook creation and job costing
- Workflow automation and integrations
- Dispatcher and technician training
- Full front office support and business consulting

Beacon works with HVAC, plumbing, electrical, and other home service and construction businesses across North America.
