Tampa, Mar 24, 2025 ([Issuewire.com](https://www.issuewire.com)) - The artist grew a connection with music when he was being raised near Broward County in Florida. He started to write and create his own music. He pushed himself from a very young age to become an artist because he loved the struggle and the journey more than the destination. **WordszOfLife** is a young rap artist who has recently released two of his brand new tracks which are '**Einen (ONE)**' and '**Mash**' respectively. Both of the tracks have gained quite a lot of attention from fans all around the globe. This is a huge deal for any blooming artist. The tracks are a testament to the hard work and dedication that has been put into making these tracks.

The first track '**Einen (ONE)**' is of a cooler tone with surprising beat drops. The fast-paced and hard-hitting lyrics are amplified by the background music. The use of techno music creates a unique melody that is enough to take the listeners on a rollercoaster ride. The second track is called '**Mash**' which has a very eerie introductory music but the scenes change when **WordszOfLife** starts rapping and spitting groovy verses. The sound of this track is very modern and has a different flair to it. This kind of musicality shows what this young rapper is capable of. He gave himself the name Words after going through spiritual enlightenment and figured that people are what they speak, which is words.

Other than the new tracks, this artist has gifted his fans with tracks like **‘Cyber Punk’**, **‘Walk Like This’**, **‘Hate Me Now’**, **‘Epiphany’**, and **‘Violet’**. The rapper has worked with artists like Pusha Preme and Traka.
