

Control4 X4: The Future of Smart Home Automation Unveiled by Houston Custom Installers

Revolutionizing Smart Home Automation: Control4 X4 Enhances Personalization, Convenience, and Integration

Houston, Texas Mar 11, 2025 ([IssueWire.com](https://www.issuewire.com)) - Houston Custom Installers proudly announces the arrival of **Control4 X4**, the next evolution in smart home automation, set to launch in **early 2025**. This groundbreaking update introduces enhanced personalization, streamlined automation, and expanded integration with **Apple HomeKit**.

Key Features of Control4 X4:

- Home Screen:** A redesigned dashboard that offers instant access to frequently used devices like lighting, climate controls, and entertainment.
- Customizable Widgets:** Users can personalize their dashboard with adjustable widgets, allowing quick control of their most-used systems.
- Routines for Automation:** Control4 X4 introduces flexible, user-defined Routines that automate daily activities, improving convenience and efficiency.
- Apple HomeKit Integration:** Users can now connect their Apple devices with Control4 systems, enhancing functionality with **Siri**, **CarPlay**, and other Apple services.

Important Transition Information:

To upgrade to Control4 X4, users must meet the following requirements:

?? **Control4 OS version 3.3.1+**

?? **CORE Controllers recommended (CA and EA Controllers supported)**

?? **Control4 Connect will be required for the update**

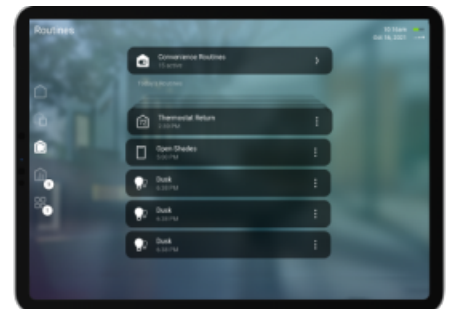

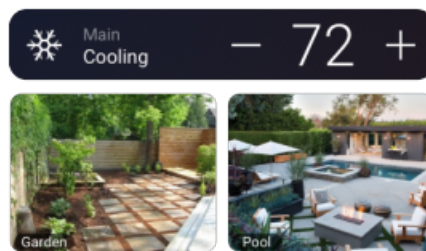

Legacy Device Transition:

With the introduction of Control4 X4, older hardware such as **Gen 1 & 2 lighting**, **T3 Touchscreens**, and **EA OnScreen Displays** will become unsupported in future updates. Houston Custom Installers is offering exclusive promotions to help homeowners transition to modern devices and unlock the full potential of Control4 X4.
