

Dr. Anna Brunetti: A Family-Oriented Approach to Periodontal Care in New Jersey

Transforming Dental Health with Compassion and Expertise

New York City, New York Mar 26, 2025 ([Issuewire.com](https://www.issuewire.com)) - Dr. Anna Brunetti, a board-certified periodontist with a passion for patient care, is dedicated to treating her patients with the same warmth and compassion she experienced growing up in a close-knit Italian immigrant family in New Jersey. With a commitment to making every patient feel like part of her extended family, Dr. Brunetti emphasizes that periodontal treatment is not just a series of appointments but a long-term relationship built on trust and support.

In regards to her academic experience, her impressive academic background includes a Bachelor of Arts in Biology from Rutgers University, where she graduated summa cum laude from the Honors College, followed by her dental degree from UMDNJ in Newark, NJ. She completed her periodontal residency at UMDNJ, where she was appointed chief resident and received the prestigious Michael J. Deasy Distinguished Scholar Award.

As a certified LANAP clinician, Dr. Brunetti offers her patients the latest advancements in minimally invasive periodontal treatments. She is dedicated to lifelong learning and regularly publishes articles sharing her insights and experiences in the field of periodontics.

In addition to her clinical practice, she is passionate about educating the next generation of dental professionals. She serves as a Clinical Assistant Professor at Rutgers School of Dental Medicine and is currently an attending staff member at Morristown Medical Center, where she mentors dental students and residents in periodontics.

“Family has always been a cornerstone of my life,” Dr. Brunetti reflects. “My parents taught me the importance of treating everyone who enters our home as family, and I carry those values into my practice every day. I believe that providing comfort and familiarity in a dental setting is crucial, especially for patients undergoing periodontal treatment, which can often be daunting.”

A resident of Livingston, NJ, Dr. Brunetti is actively involved in her community as a member of the Livingston Rotary Club. Outside of her professional commitments, she enjoys traveling, exploring diverse cultures, and expressing her artistic side through mosaic artwork in her hometown of Vineland, NJ. Most importantly, she cherishes time spent with her own family.

“I look forward to welcoming new patients into my practice and providing them with the highest standard of periodontal care,” Dr. Brunetti says. “Together, we will navigate their dental journeys as a family, ensuring they receive the support they need for optimal oral health.”
