

Fileroom Earns HubSpot Solutions Architecture Design Accreditation

Perth, Western Australia May 15, 2025 ([Issuewire.com](https://www.issuewire.com)) - [Fileroom](#) is proud to announce that it has achieved **HubSpot Solutions Architecture Design Accreditation**. HubSpot, a leading customer relationship management (CRM) platform for scaling companies, awards this accreditation to **Solutions Partners** who demonstrate advanced expertise in designing and implementing complex HubSpot solutions. The accreditation process involves rigorous evaluation of technical competency and strategic experience in customising complex solutions.

This accomplishment validates **Fileroom's** capability to architect sophisticated HubSpot implementations that address advanced customer use cases and deliver tangible business outcomes across HubSpot's CRM platform suite.

HubSpot Solutions Architecture Design Accreditation is reserved for partner organisations that exhibit exceptional technical proficiency and strategic capabilities in designing enterprise-level HubSpot implementations. Partners must demonstrate comprehensive expertise in architectural design, system integration, and complex workflow automation to earn this recognition.

[Emma Ruefli](#), Managing Director & Founder of Fileroom, commented, "Securing the HubSpot Solutions Architecture Design Accreditation reinforces our position as a leading technical implementation partner, particularly for B2B and industrial sector clients with complex architectural requirements. This achievement, combined with our existing accreditations in Custom Integration and Onboarding, enables us to deliver even more sophisticated solutions that drive measurable business growth for our clients."

As a [HubSpot Platinum Partner](#) and member of the HubSpot Partner Advisory Council, this latest accreditation further strengthens Fileroom's capability to deliver comprehensive HubSpot solutions that align with enterprise-level business objectives.
