

Kiara Fina: A Rising Star Redefining the Dance World with Her Undeniable Talents

Toronto, Ontario Mar 15, 2025 (IssueWire.com) - Kiara Fina began dancing at the age of 8, and from that moment, she knew dance was her true calling. Despite the challenges she knew a dance career would bring, it was these very obstacles that fuelled her drive to keep pushing forward. After graduating high school, she attended The CLI Dance Conservatory, where she was able to work with some of the most respected people in the industry such as, Brian Friedman, Brain Nicholson, Robert Green, Teddy Forance, Nina McNeely, and the list goes on.

Kiara's dedication and talents were recognized when she earned awards for being one of the Top 10 Female Best Dancers in North America at The Dance Awards. This prestigious recognition further solidified her place in the competitive world of dance and fueled her ambition to continue breaking barriers. One of the defining moments in her career came when Kiara started creating duet videos with her dance partner, Artem Tikhonenko. Their mini-duets went viral, amassing over 7.3 million views and catching the attention of people both inside and outside the dance world. This marked the beginning of her rise in the industry. Kiara has performed at The World Choreography Awards with Royal Flux, directed by Jaclyn Royal, and worked on projects like the upcoming Jonas Brothers Christmas Movie and Road to Sydney, filmed in the Philippines. But perhaps the pinnacle of Kiara's career came when she worked with Cirque du Soleil on their show Twas the Night Before. As a lifelong dream to be part of the iconic company, touring with Cirque was beyond anything Kiara had imagined. Along with her fellow cast members, Kiara also made waves on TikTok, creating viral videos, garnering over 50.6 million views on her personal page.

Through every experience, Kiara has learned that success and recognition are rewarding, but they stem from a deep, unwavering love for dance. For her, it's always been about having fun and staying true to the reason she began dancing in the first place—because it makes her soul feel alive. While her journey is just beginning, Kiara has already proven to herself that with hard work, dedication, and a willingness to learn, dreams really can come true. As she continues to evolve in her career, Kiara is putting in the effort and trusting that the universe will guide her to whatever comes next.
