

Majority of Jamaicans support monarchy, surprise poll finds

Kingston, Jamaica Mar 14, 2025 ([IssueWire.com](https://www.issuewire.com)) - A new opinion poll hosted by Pollfish on behalf of Irish citizen Anthony McDonnell shows support for monarchy in Jamaica, but only when the option of Jamaica having its own resident king or queen is included. This gives monarchists a combined one per cent lead over republicans, at 34 per cent of those polled. This is the first opinion poll to include the option of Jamaica having its own king or queen, making it truly ground-breaking.

In the first question of the survey, when asked whether they want Jamaica to become a republic, 36 per cent said yes, 23 per cent said no and 41 per cent said that they were undecided.

In the second question, when asked what form of government Jamaica should have, 33 per cent said a republic, 22 per cent said that it should share a king or queen with the United Kingdom, 12 per cent said that it should have its own king or queen who would live in Jamaica, and 33 per cent were undecided.
