

Meet Angela Richwine, RDH, BASc, QOM: Your Expert in Dental Hygiene and Orofacial Myology

Transforming Oral Health with Expertise and Compassion

New York City, New York Mar 11, 2025 ([Issuewire.com](https://www.issuewire.com)) - Angela Richwine, RDH, BASc, QOM, is excited to reaffirm her commitment to enhancing patient care as a Registered Dental Hygienist and Qualified Orofacial Myologist at Central Virginia OMT in Fredericksburg. With over 29 years of experience in the dental field, Angela specializes in Orofacial Myofunctional Therapy, a practice that focuses on correcting oral habits and retraining the facial muscles to support optimal mouth function and

airway health.

Angela holds a Bachelor's degree in Applied Sciences and is a certified provider of MUNCHEE and BEBE Munchee, both innovative tools designed to promote better oral health and breathing in patients of all ages. As the Director of Operations for Airway Circle, she works tirelessly to advance knowledge and practices in airway health, ensuring that patients receive the most comprehensive care possible.

"I'm passionate about helping my patients develop proper oral habits that promote long-term health," Angela shares. "By focusing on the connection between oral function and airway health, we can make a significant impact on our patients' lives. I believe that every patient deserves to breathe freely and live comfortably."

Angela is a proud member of several prestigious organizations, including the Virginia Dental Hygienists' Association (VDHA), American Dental Hygienists' Association (ADHA), International Association of Orofacial Myology (IAOM), International Academy of Airway Health (IAAH), and the American Academy of Physiological Medicine and Dentistry (AAPMD). Her dedication to continued education and professional development ensures she remains at the forefront of advancements in dental hygiene and myofunctional therapy.

In her role as a MyoMentor Ambassador and Breathe Babies Ambassador, Angela also focuses on educating families about the importance of proper oral function from a young age. "Early intervention is key. By addressing these issues early, we can set children on a path to better health and improved quality of life," she explains.

Patients can expect a warm, welcoming environment where their oral health is prioritized. Angela invites everyone to visit Central Virginia OMT to learn more about the benefits of Orofacial Myofunctional Therapy and how it can improve their overall health.
