

Meet Vivek Jagadale, MD, MS: Leading Orthopedic Surgeon and Gene Researcher Innovator

Redefining Precision Medicine and Joint Reconstruction in Florida

New York City, New York Mar 24, 2025 ([Issuewire.com](https://www.issuewire.com)) - Vivek Jagadale, MD, MS, a double fellowship-trained and double board-certified adult reconstructive orthopedic surgeon, is making significant strides in the fields of orthopedic medicine and research at the US Department of Veterans Affairs, in affiliation with the University of Florida. With a commitment to teaching and patient care, Dr.

Jagadale employs advanced techniques and cutting-edge robotic technologies to deliver predictable precision outcomes for individuals suffering from painful joints and those in need of joint reconstruction.

As the CEO and President of Gifted Genes, a pioneering gene research, education, and development Institute, Dr. Jagadale leads a passionate team of scientists, surgeons, and scholars dedicated to exploring the potential of high-performance positivity genes. This innovative research focuses on the intricate relationship between DNA, and individual performance, productivity, and musculoskeletal health responsible for overall well-being. The team seeks to uncover what drives 4 billion years of evolution in DNA, influencing daily decisions, disabilities, diseases, and destinies—whether for those struggling or achieving remarkable success.

Dr. Jagadale's medical journey began in 2000 when he earned his Medical Degree from the Krishna Institute of Medical Sciences in India. After relocating to the United States, he completed a fellowship in adult reconstructive foot and ankle surgery at the University of Arkansas for Medical Sciences College of Medicine in 2011, followed by a fellowship in adult reconstructive hip and knee surgery at the University of Minnesota Medical School in 2013.

His professional affiliations are extensive; he is a Board Certified Diplomate in Orthopedic Surgery, a Fellow of the American Academy of Orthopedic Surgeons, and a CEO Circle Member of the American College of Healthcare Executives. Dr. Jagadale's contributions to medicine span over 25 years, establishing him as a teacher, mentor, leader, author, and researcher in the fields of arthritis, robotics, genetics, and genomic intelligence. He has authored more than 70 book chapters, six medical books, and numerous peer-reviewed journal articles, published over multiple continents, gaining recognition as a prominent voice in precision surgery, modern medicine and healthcare leadership globally.

Recently, Dr. Jagadale was honored by the Florida medical community as one of the most elite medical doctors and leaders, an accolade published in Orlando Style Magazine. Outside of his professional commitments, he enjoys travel, tennis, and transformative writing, while entertaining quality time with family, and friends.

With over three decades of experience, Dr. Jagadale's vision to advance precision surgery and genomic intelligence-based treatments marks him as a leading figure in promoting healthier societies worldwide, setting new benchmarks for excellence in healthcare.
