

Preferred Health Magazine Celebrates Brain Health & Technology

Preferred Health Magazine Hosts Exclusive "Brains & Beauty" Winter Cover Party at Au Bar56

Boca Raton, Florida Mar 4, 2025 ([Issuewire.com](https://www.issuewire.com)) - Preferred Health Magazine Hosts Exclusive Brains & Beauty Winter Cover Party at Au Bar56

Preferred Health Magazine (PHM) celebrated the highly anticipated **Brains & Beauty Winter Cover Party** with an exclusive soirée at the sultry **Au Bar56**. This intimate gathering of 100 esteemed guests brought together world-renowned doctors, international ambassadors, visionary fashion designers, top media executives, and influential tastemakers to celebrate the intersection of brain health, advancements in robotics and technology, and the rise of holistic modalities revolutionizing modern medicine.

Against the sophisticated backdrop of Au Bar56, guests engaged in dynamic discussions on cutting-

edge treatments and breakthrough medical innovations that challenge conventional approaches. The evening spotlighted **trailblazing doctors, Neuroscientist Dr. Philip DeFina and Neurosurgeon Dr. Gentian Toshkezi** who are **pushing boundaries and paying it forward**, embracing forward-thinking solutions that are shaping the future of healthcare.

PHM Publisher and CEO, Angelina Cappiello, captivated the audience with a powerful address on the importance of **amplifying the voices of innovative medical pioneers**. “At Preferred Health Magazine, we are committed to showcasing the **game-changers in medicine—those unafraid to think beyond the mainstream** and implement progressive approaches that enhance patient care,” Cappiello shared.

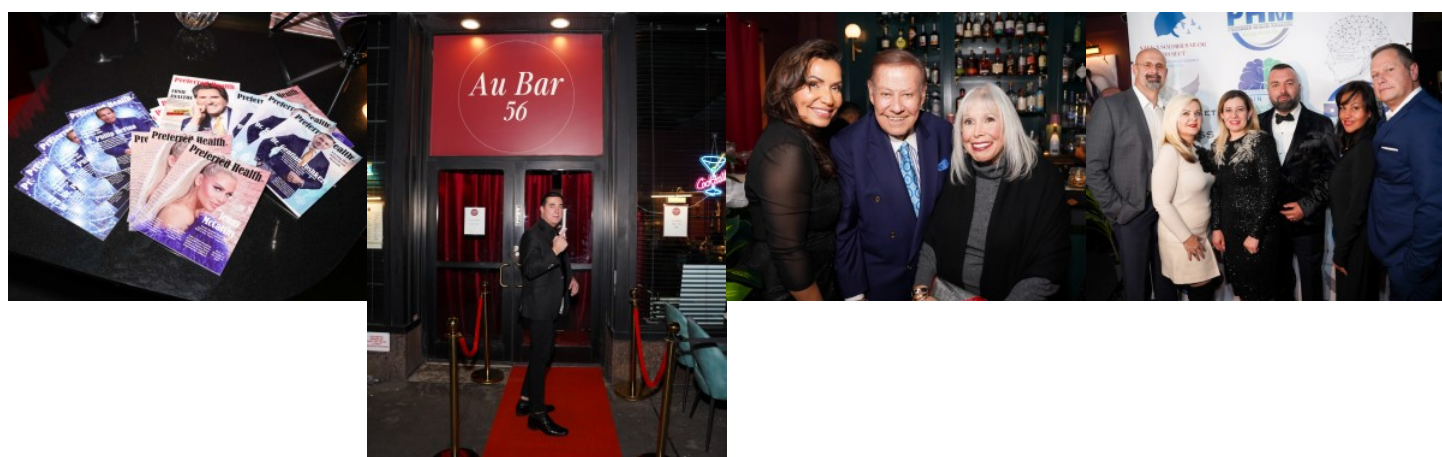

The **Brains & Beauty Winter Cover Party** not only celebrated medical brilliance but also underscored the **synergy between technology, fashion, and holistic wellness**, reinforcing PHM’s mission to bring **cutting-edge, alternative health solutions to the forefront**. With an atmosphere of elegance, inspiration, and forward-thinking dialogue, the event set the tone for an exciting year of continued breakthroughs in healthcare and beyond.
