

Roger Friedman, MD: Celebrated Plastic Surgeon Retires After 35 Years of Transformative Care in Washington, D.C.

Celebrating a Legacy of Excellence in Cosmetic and Reconstructive Surgery

New York City, New York Mar 20, 2025 ([IssueWire.com](https://www.issuewire.com)) - After an esteemed career spanning four decades, Dr. Roger Friedman, a board-certified Plastic and Reconstructive Surgeon, has made the decision to sell his practice in Montgomery County, Maryland, effective June 2024. Renowned for his expertise in both cosmetic and reconstructive surgery, Dr. Friedman has profoundly impacted the lives of countless patients, not only across the Washington Metropolitan area but also nationally.

What he did not fully realize at the time, however, was how much he valued every aspect of his practice—both the artistry of the operating room and the meaningful connections with his patients.

Dr. Friedman's practice was exceptionally diverse, encompassing a wide array of procedures, including facial rejuvenation, eyelid and brow surgery, rhinoplasty, breast surgery (both cosmetic and reconstructive), and body contouring.

Dr. Friedman began his academic journey at Washington University in St. Louis, where he earned an undergraduate degree in Architecture. He went on to attend George Washington University School of Medicine, graduating with honors. His extensive training continued with residency programs in General Surgery and Plastic Surgery at the University of Michigan, followed by prestigious fellowships in cosmetic surgery and microsurgery. Dr. Friedman is certified by the American Board of Plastic Surgery and remains an active member of the Aesthetic Society. Over the years, he has received numerous accolades, including recognition as a *Washingtonian Top Doctor* for more than 20 years, multiple *Best of Bethesda* awards, and the title of number one in *Checkbook Magazine*. For the past three years, he has been recognized by *U.S. News & World Report* as one of the top 100 plastic surgeons in the United States, with particular expertise in facelifts, rhinoplasty, breast augmentation, and liposuction.

As he transitions into this next chapter of his career, Dr. Friedman looks forward to combining the latest surgical techniques with his wealth of experience. He continues to contribute to the field through teaching plastic surgery residents at Johns Hopkins University. Dr. Friedman will also be practicing in a state-of-the-art plastic surgery office in Reston, Virginia, equipped with a cutting-edge operating suite offering general anesthesia.

Consultations can be arranged by contacting Donna Aguas at the Austin Weston Clinic at 571-323-0558. aguas@Austin-Weston.com
