

Sweven Unveils Next-Gen Platform for Automating Facility Maintenance with Real-Time Vendor Selection

Sweven introduces a cutting-edge solution that streamlines work order management and connects businesses with the right service providers through intelligent automation and IoT integration.

Maintenance, Mobile, Marketplace Networked commercial FM

Miami, Florida Mar 10, 2025 ([Issuewire.com](https://www.issuewire.com)) - [Sweven](https://www.sweven.com) continues to reshape the facility maintenance industry with the launch of its innovative platform that seamlessly automates work order management and vendor assignment in real-time. This cutting-edge solution harnesses the power of advanced

automation and IoT technologies to deliver operational efficiency, cost savings, and improved service quality.

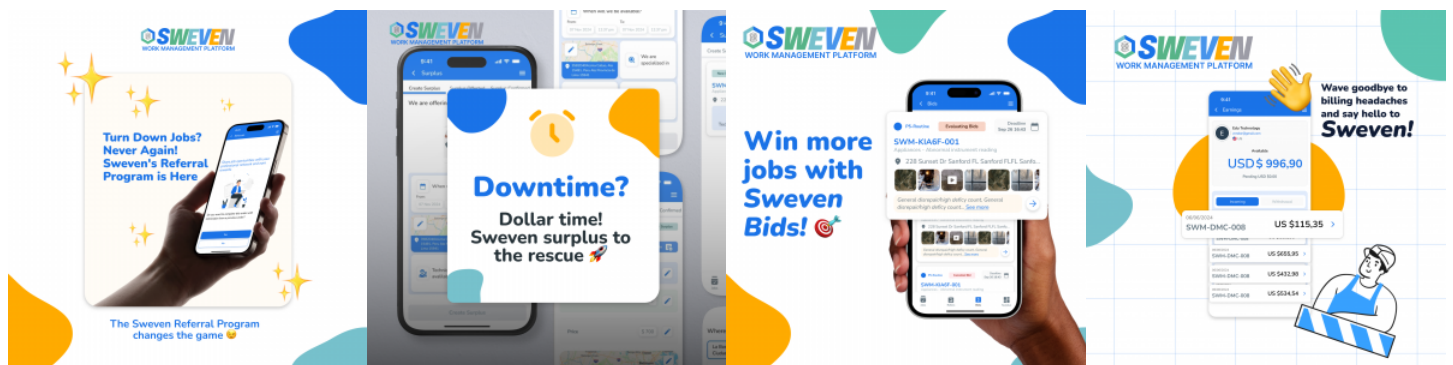

In an industry historically dependent on manual processes, Sweven's new platform is designed to eliminate errors and reduce delays. The Auto-Dispatch feature assigns the most suitable service provider based on criteria such as availability, proximity, and expertise—ensuring tasks are completed quickly and efficiently.

“We’re setting a new standard in facility maintenance,” says Jorge, CEO of Sweven. “Our platform not only automates routine tasks but ensures clients connect with the right service providers instantly, improving transparency and reducing overhead costs.”

Key features of the platform include:

- **Automated Recurring Maintenance:** Streamlines scheduling of routine tasks, cutting management time by up to 80%.
- **Bidding System:** Clients receive multiple competitive proposals, selecting the best option based on price, quality, and response time.
- **IoT Integration:** Real-time monitoring through smart sensors detects potential issues before they escalate, triggering work orders automatically.
- **Surplus Monetization:** Vendors can offer immediate availability at competitive prices, turning downtime into new business opportunities.

The platform is now available on the [App Store](#) and [Google Play](#), offering businesses and service providers an intuitive way to manage facility maintenance on the go. Sweven remains committed to pushing the boundaries of innovation and delivering value to both clients and vendors in the facility maintenance space.
