

# Total Scope Estimating Launches Rapid, Accurate Construction Cost Estimating Services for Texas Contractors

## **TOTAL SCOPE**

### **E S T I M A T I N G**

**Texas City, Texas Jan 22, 2026 ([Issuewire.com](http://Issuewire.com)) - 15+ Years of Expertise, 12-24 Hour Turnaround, and 30-40% Cost Savings**

Total Scope Estimating, a leading provider of construction cost estimating services, today announced its expanded solutions for contractors, developers, and architects across Texas. With over 2,000 clients

nationwide and a 100% satisfaction guarantee, the firm delivers unmatched speed and precision to Texas' booming construction industry, from Houston skyscrapers to Austin residential builds.

## Why Texas Contractors Trust Total Scope Estimating

- **15+ Years of Texas-Specific Expertise:** In-depth understanding of local pricing, labor rates, and project demands across the Lone Star State.
- **30-40% Cost Savings vs. Competitors:** Leveraging AI-powered takeoffs and proprietary cost databases for lean, competitive bids.
- **Fast 12-24 Hour Turnaround:** Keeping Texas projects on track with rapid, reliable estimates.

## Full-Service Solutions:

- Texas Construction Estimating Services (<https://totalscopeestimating.com/texas-construction-estimating-services/>)
- Residential, Commercial, and Industrial Takeoffs
- Detailed Cost Estimates for Budgeting and Bidding
- CPM Scheduling and Project Management Support

“In Texas, where construction moves fast and margins matter, our goal is simple: give contractors estimates they can bank on,” says Alex, CEO at Total Scope Estimating. “With 15 years of experience, we’ve fine-tuned our process to help clients win bids and build profitably—whether it’s a Dallas commercial project or a San Antonio home renovation.”

## Proven Results for Texas Projects

- Cut bid preparation time by 40% for a Houston general contractor, securing \$1.8M in new contracts.
- Reduced material cost overruns by 25% for an Austin residential builder using real-time Texas market data.
- Delivered a \$150K savings for a San Antonio industrial project through precise piping and steel takeoffs.
