

Virtue Solar is Now a FranklinWH Certified Installer!

Charlottesville, Virginia Mar 10, 2025 ([Issuewire.com](https://www.issuewire.com)) - We're excited to announce that [Virtue Solar is now a FranklinWH Certified Installer](#)! This means we can now offer FranklinWH's aPower 2 battery systems to homeowners looking for reliable battery backup solutions.

If you've been considering adding [battery-backup](#) to your solar setup, this is a big deal.

Who is FranklinWH?

FranklinWH is a US-based company that makes home batteries to help people store and manage their electricity. They started in **2020** and are based in **San Jose, California**.

Their main product, the **Franklin Home Power system**, includes the aPower 2 battery and aGate energy manager, which work together to keep homes powered during outages and help lower electricity bills.

FranklinWH focuses on making **strong, long-lasting batteries** using **lithium iron phosphate (LFP)**, a safe and reliable technology. Their batteries come with a **15-year warranty**, one of the longest in the industry.

Why We're Excited About FranklinWH Batteries

The **aPower 2** is the newest generation of one of the best battery storage options on the market today. Here's why we're thrilled to install them for our customers:

- ❓ **15-Year Warranty** – That's **50% longer** than most competitors, providing greater peace of mind.
- ❓ **Powerful Backup** – With **15 kWh of usable energy** per battery and the ability to stack up to **225 kWh**, you'll have enough stored power to keep your home running during outages.
- ❓ **Handles Heavy Loads** – The aPower 2 can handle big appliances, including **5-ton air conditioners**.
- ❓ **AC-Coupled Design** – Works great as an add-on to **existing solar systems**, even if you already have panels installed.
- ❓ **Weather-Ready** – With an **IP67 rating** for its battery pack, this system is built to withstand tough conditions, making it perfect for Virginia homeowners.

The **aPower 2** is designed for homeowners who want **whole-home backup power**, especially in areas where grid outages are a concern. Whether you already have solar and want to add storage or are planning a new solar-plus-battery system, this is an excellent choice.

Get a FranklinWH Battery Installed by Virtue Solar
