

VISTA InfoSec Launches AuditFusion360: Simplifying Complex Compliance Audits

Mumbai, Maharashtra Mar 25, 2025 ([Issuewire.com](https://www.issuewire.com)) - VISTA InfoSec is thrilled to introduce [AuditFusion360](#), an innovative solution designed to streamline and simplify the audit process for organizations facing multiple regulatory frameworks.

Managing various standards like PCI DSS, SOC 2, GDPR, ISO 27001, and SWIFT CSP can be overwhelming, leading to duplicated efforts, increased audit and compliance costs, and operational disruptions. AuditFusion360 manages these challenges head-on by integrating overlapping controls, eliminating control repetitions, and delivering a comprehensive, unified audit experience.

"AuditFusion360 goes beyond traditional auditing — it's a strategic approach to help organizations navigate the ever-evolving audit landscape efficiently," said **Narendra Sahoo, Founder & Director of VISTA InfoSec**. *"We aim to reduce compliance and audit fatigue while ensuring a robust and streamlined audit process."*

With AuditFusion360, businesses can tackle multiple regulatory standards—including HIPAA, SOC 1/2, PDPA, and NCA ECC—all at once. The solution not only saves time and resources but also offers meaningful insights into an organization's overall risk posture. By minimizing disruptions, companies can focus on growth without compromising compliance.

As organizations continue to face an increasingly complex regulatory landscape, AuditFusion360 stands as a testament to VISTA InfoSec's commitment to simplifying compliance while maintaining the highest standards of security. By empowering businesses to manage multiple frameworks in a single, cohesive audit, we aim to transform how organizations approach audits—focusing less on complexity and more on building resilience and trust.
