

## 2025 Yangtze River Delta Vocational Education and Industry-Education Integration Summit Successfully Held

**New York City, New York Apr 18, 2025 ([Issuewire.com](https://www.issuewire.com))** - Summit on Quality "Vocational Education Going Global" and International Industry-Education Integration for Vocational Colleges in Yangtze River Delta was successfully held in Shanghai. The summit brought together distinguished guests from China and Southeast Asia to share insights on international exchanges and enterprise cooperation under the "Vocational Education Going Global" initiative, with a focus on the "New Double High-Level Plan" and high-quality international industry-education integration between schools and enterprises.

At the summit, key figures from the vocational education and related sectors in China and Southeast Asia engaged in in-depth discussions on high-quality development of vocational education and international cooperation in industry-education integration. Attendees included Dr. Songheang Ai, Director of Southeast Asian Ministers of Education Organization Regional Centre for Technical Education Development (SEAMEO TED); Zhou Qingyuan, Party Committee Member and Vice President of Changzhou Vocational Institute of Mechatronic Technology; Chen Lijing, President of Shanghai Vocational College of Agriculture and Forestry; Dr. Eni Dwi Wardihani, President of Politeknik Negeri Semarang, Indonesia; Kong Xiaohui, Assistant to the President of XCMG Xuzhou Construction Machinery Technician College; Chen Xing, General Manager of Haitian Education; Li Kun, Director of General Affairs Department of PT. CCEPC Indonesia, and representatives from educational administrations, vocational colleges, industry associations, and enterprises.

The successful organization of this summit not only provides an important platform for vocational colleges and universities in the Yangtze River Delta to show the practical achievements of “Vocational Education Going Global”, but also injects new momentum into the cooperation between China and Southeast Asian countries in the field of vocational education. Through in-depth cross-regional and cross-field exchanges and resource docking, the summit has further strengthened the foundation for the development of international industry-education fusion, reinforced the talent cultivation mechanism of school-enterprise cooperation and government-school synergy, and provided powerful support for the construction of a new pattern of open and win-win international cooperation in vocational education.
