DESIGN 2 PART SHOWS

Hudson, Massachusetts Apr 29, 2025 (Issuewire.com) - [Alternate Finishing, Inc. \(AFI\)](http://AlternateFinishing.com), a leading provider of metal finishing services, including electroless nickel and immersion gold (ENIG), today announced its participation in the 2025 Southern New England Design-2-Part Show. The event will take place on April 23 & 24, 2025, at the Mohegan Sun Exposition Center in Uncasville, CT.

To learn more about AFI's comprehensive metal finishing solutions, attendees are invited to visit AFI at Booth 440 in the Exhibit Hall. The company specializes in metal finishes on PCBs and machine parts, offering high-quality and reliable services to meet diverse industry needs, including requirements of healthcare, defense, and energy sectors.

"We look forward to connecting with engineers and product developers at the D2P Show," said Bob Peterson, owner of AFI. "This is a valuable opportunity for us to showcase our expertise in metal finishing and PCBs, and to explain to them how our services can improve the quality and performance of their products."

The Southern New England Design-2-Part Show provides a platform for companies to connect with suppliers offering custom parts, design, and manufacturing services. Attendees of the event can explore the latest innovations and find solutions for their specific applications.
