

Arnau Benet, MD, PhD: Pioneering Vascular Neurosurgery and Global Education Initiatives

Global Neurosurgical Expert Dr. Arnau Benet Expands Impact in California

New York City, New York Apr 11, 2025 ([Issuewire.com](https://www.issuewire.com)) - The field of neurosurgery is set to benefit greatly from the expertise and leadership of Dr. Arnau Benet, MD, a distinguished adjunct professor of global neurosurgery at the Barrow Neurological Institute. As the founder, president, and CEO of California Neurosurgical Specialists and the director of vascular neurosurgery at Los Robles Hospital and Medical Center, Dr. Benet is recognized for his groundbreaking work in vascular neurosurgery and

skull base surgery.

Dr. Benet has dedicated his career to the treatment of complex neurosurgical conditions, such as blood vessel malformations and tumors affecting the brain and spine. His commitment to advancing the field is reflected in his active memberships with the American Association of Neurological Surgeons and the Congress of Neurological Surgeons, where he collaborates with fellow experts to enhance surgical practices and patient care. Dr. Benet's professional core values include integrity, compassion, and operative excellence.

After earning both his medical degree and Doctor of Philosophy from the University of Barcelona, Dr. Benet completed a rigorous neurosurgery residency at Barrow Neurological Institute, followed by specialized fellowships in advanced cerebrovascular and skull base surgery in Chile and Japan. These experiences have equipped him with a wealth of knowledge and skills that he brings to his practice in California.

While serving at the University of California-San Francisco (UCSF), Dr. Benet founded the Skull Base and Cerebrovascular Laboratory, where he not only conducted cutting-edge research but also mentored international fellows. His lectures on operative neurosurgery have reached audiences worldwide, underscoring his commitment to knowledge sharing and education.

Dr. Benet's current academic projects focus on enhancing neurosurgical education in underserved regions, particularly in Latin America and Indonesia. As core faculty in Indonesia's government initiatives to improve aneurysm and stroke care, he is dedicated to fostering local expertise and improving patient outcomes.

With over 250 peer-reviewed publications and 20 book chapters, Dr. Benet is a prolific contributor to the scientific community. His work not only advances the field of neurosurgery but also inspires future generations of neurosurgeons to pursue excellence in their practice.
