

Cascade Corporation: Revolutionizing Material Handling, One Attachment at a Time

Logistics and warehousing involves heavy-duty, high-energy operations where inefficiency is the silent profit killer...

Findlay, Ohio Jun 11, 2025 ([Issuewire.com](https://www.issuewire.com)) - Logistics and warehousing involves heavy-duty, high-energy operations where inefficiency is the silent profit killer. While traditional forklifts can help, they often fall short of addressing complex material handling challenges. This includes activities such as

delicate paper rolls to handle pallet-less goods. Fortunately Cascade Corporation is a company that doesn't just solve problems but anticipates them. Their mission is to deliver innovative attachments that transform forklifts into multitasking powerhouses.

Introducing Cascade Corporation

Cascade Corporation has an interesting story behind its formation. Starting humbly in 1943 as a small machine shop, it has now grown into a global powerhouse, with customers in over 35 countries. It is a subsidiary of Toyota Industries Corporation. The company has made its mission to innovate, earning a reputation as the go-to provider for material handling solutions.

Innovative Solutions for Every Industry

Cascade's extensive product lineup includes a range of forklift attachments designed to tackle the most demanding material handling tasks. Let's look at some of the more prominent ones.

- **Forklift Attachments:** This category includes attachments like sideshifters, fork positioners, carton clamps, paper roll clamps, and push/pull attachments, all of which are designed to enhance the versatility of forklifts.
- **AGV Solutions:** This is the latest logistical innovation in the world today. Cascade Corporation provides advance technologies for automated guided vehicles, improving efficiency in automated systems.
- **Construction Attachments:** This category includes tools for excavators, wheel loaders, skid steers, and telehandlers.
- **Smart Solutions:** Various products that integrate technology for smarter material handling can be found at Cascade Corporation.
- **Mobile Weighing Systems:** These are solutions for overload protection and effective inventory control.

Global Reach

Cascade's international presence allows it to provide local service and support while leveraging global expertise. With manufacturing facilities and offices across continents, the company ensures that customer needs are met promptly and efficiently.

Commitment to Sustainability

Cascade is dedicated to sustainability, focusing on eco-friendly solutions that help businesses reduce their environmental footprint. Their pallet-less handling systems, for example, promote cost savings and environmental responsibility.

The company's ability to collaborate with customers to develop tailored solutions should also be mentioned. Whether it's a small business or a large enterprise, Cascade's team works closely with clients to understand their unique challenges and deliver products that drive efficiency and productivity.

A Little about Cascade Forksetter

The Cascade Forksetter™ is a cutting-edge solution designed to revolutionize fork positioning in material handling applications. This innovative system integrates specialized sensors with truck hydraulics to automatically guide fork positioning, ensuring precision and efficiency in operation. This

makes it ideal for industries that frequently handle variable-sized loads, such as automotive, logistics, shipping, and warehousing.
