

Contact Form to Any API Empowers WordPress Users with Seamless API Integration

Morrisville, North Carolina Apr 24, 2025 ([Issuewire.com](https://www.issuewire.com)) - [Contact Form to Any API](#), a powerful WordPress plugin that enables users to connect Contact Form 7 submissions to over 150+ third-party APIs, including CRMs, marketing platforms, and custom applications. With over 9,000 active installations and a 5-star rating, this plugin is transforming how businesses automate lead capture and data workflows.

Streamline Your Workflow with Advanced Features

Contact Form to Any API offers a comprehensive suite of features designed to simplify API integrations:

- **Unlimited API Connections:** Easily send form data via POST/GET to any REST API.
- **Flexible Authentication:** Supports Basic and Bearer authentication methods.
- **Data Management:** Save submissions to the database and export in CSV, Excel, or PDF formats.
- **API Logs:** Monitor submitted data and API responses for transparency and troubleshooting.

Enhanced Capabilities with the Pro Version

The Pro version unlocks additional functionalities

- **Multi-API Support:** Send data to multiple APIs simultaneously.
- **Advanced JSON Handling:** Support for multi-level or custom JSON formats.
- **File Uploads:** Convert uploaded files to BASE64 and transmit them via API.
- **Customizable Triggers:** Choose when to send data—before or after email notifications.
- **Priority Support:** Access to dedicated customer service for prompt assistance.

Trusted by a Global User Base

Users worldwide have lauded the plugin for its reliability and exceptional support:

“The plugin works very well and the support is great.” – josesebastiao
