

Crespo Partners Releases Free “2025 Q1 AI Report” to Help Small Businesses Compete Smarter

With the rise of AI in marketing and automation, Crespo Partners shares key insights and announces upcoming live demos of Crespo AI, their all-in-one platform for entrepreneurs.

Lakeland, Florida Apr 1, 2025 ([IssueWire.com](https://www.issuewire.com)) - In today's fast-paced digital economy, small business owners and entrepreneurs are under more pressure than ever to keep up. That's why Crespo Partners—creators of the all-in-one AI business platform, Crespo AI—have released a free resource designed to help. The **“2025 Q1 AI Report for Business Owners & Entrepreneurs”** is now available for download at crespopartners.org.

This report breaks down the biggest shifts in AI adoption from the start of the year, spotlighting how businesses are using intelligent automation to save time, cut costs, and compete with larger enterprises.

“This isn't just about saving time—it's about making better decisions and reaching customers in smarter ways,” said Bryan Jaglal, founder of Crespo AI and MBC Software. *“We created this platform because we've lived the struggle of building a business without the resources of a big team. AI gave us a way to change that—and now we're sharing that with others.”*

Highlights from the report:

- **AI adoption surged in Q1 2025**, especially among startups and small businesses.
- **Marketing automation** has been a game-changer—freeing teams from hours of manual work by automating social media, emails, and customer analytics.
- **AI is now accessible**, not just to tech giants but to everyday business owners looking to grow without burnout.

The release of this report also comes with another major announcement—Crespo Partners will be hosting a series of webinars throughout April. These sessions will feature real-time walkthroughs of Crespo AI's features, including content creation, website building, sales funnel design and more.

“We're keeping these demos simple and useful. You don't need to be a tech expert to follow along,” Jaglal said. *“We want business owners to see exactly how Crespo AI can fit into their daily workflow.”*

The team is inviting anyone interested in trying the platform—or just curious about how AI can be applied to business—to subscribe to the Crespo newsletter. Subscribers will get first access to:

- Webinar invites
- Platform testing opportunities
- New feature announcements
