Noida, Uttar Pradesh Apr 25, 2025 ([IssueWire.com](https://www.issuewire.com)) - Cyfuture AI, a group company of Cyfuture and an evolving provider of cloud, AI as a service (AlaaS), and [inferencing as a service](#), is thrilled to announce its first-ever AI Hackathon 1.0 This groundbreaking hackathon, themed “1 Opportunity || 1 Stage || 1 Big Idea,” is now live and bring together developers, data scientists, AI enthusiasts, and innovators to solve real-world challenges using cutting-edge artificial intelligence technologies. The hackathon, scheduled for 4th-5th Jul’25, will provide a platform for participants to showcase their skills, collaborate with like-minded professionals, and win exciting prizes.

About Cyfuture AI Hackathon 1.0

The Cyfuture AI Hackathon 1.0 is an immersive competition where participants will leverage AI, machine learning, and data science to develop innovative solutions across various domains, including Healthcare, Finance, E-commerce, Cybersecurity, and Sustainability. The event aims to accelerate AI-driven innovation and nurture the next generation of tech leaders.

Participants will have the opportunity to work on real-world problem statements, receive mentorship from industry experts, and network with peers and potential employers. "At CyFuture, we believe in the transformative power of AI. The AI Hackathon 1.0 is our initiative to empower the brightest minds to create solutions that can drive meaningful change," said Anuj Bairathi, CEO at Cyfuture. The hackathon will culminate in a final pitch session where the best solutions will be evaluated by a panel of esteemed judges.

Key Highlights of the Hackathon 1.0

- **One Opportunity:** Participants get a chance to work on cutting-edge AI challenges curated by Cyfuture’s expert panel, focusing on impactful and scalable solutions.
- **One Stage:** The hackathon provides a unified platform for participants worldwide to present their ideas, receive mentorship, and gain exposure to Cyfuture’s extensive network.
- **One Big Idea:** The event encourages bold, innovative thinking aimed at solving pressing issues through AI technologies such as machine learning, natural language processing, computer vision, and predictive analytics
- **Themes & Problem Statements:** Challenges will span multiple industries, encouraging participants to build AI-powered solutions with real-world impact.
- **Networking Opportunities:** Connect with fellow coders, tech enthusiasts, and potential recruiters from top organizations.
- **Prizes & Recognition:** Winners will receive cash prizes, internships, job opportunities, and certificates of excellence.
- **Workshops & Learning Sessions:** Access to technical workshops and keynote speeches by AI pioneers.

"This hackathon is more than just a competition—it’s a platform for innovation, collaboration, and learning. We’re excited to see the groundbreaking ideas that will emerge," added Ajai Rai, CTO.

Who Can Participate?

The hackathon is open to:

- Students pursuing degrees in Computer Science, AI, or related fields.
- Professional developers, data scientists, and AI researchers.
- Startups and tech enthusiasts passionate about AI innovation.

Teams can consist of 1-4 members, and participants can register as individuals or groups.

Registration Details

Interested participants can register for the Cyfuture AI Hackathon 1.0 at <https://hackathon.cyfuture.ai/>.

Why Participate?

- Hands-on Experience: Work on real-world AI challenges.
- Career Growth: Gain visibility among top tech companies.
- Prizes & Rewards: Win lucrative prizes and recognition.
- Contribute to AI Advancements: Be part of a movement shaping the future of AI.

Judging Criteria

Submissions will be evaluated based on:

- Innovation & Creativity
- Technical Implementation
- Business Impact & Scalability
- Presentation & Pitch

Extensive Support and Collaboration

Cyfuture brings to the table over two decades of expertise in IT services, [cloud infrastructure](#), and AI-as-a-service solutions.
