

Echo Lights Unveils Deeply Personal Third Studio Album Unspoken

Columbus, Ohio Apr 29, 2025 ([Issuewire.com](https://www.issuewire.com)) - Independent artist, producer, and composer Echo Lights is proud to announce the release of his highly anticipated third studio album, *Unspoken*—a 14-track genre-blending journey that spans rock, pop, and classic rap, clocking in at just under 46 minutes.

Crafted entirely in his personal studio over the span of two years, Unspoken marks a significant artistic leap for the Columbus-based artist. Known for his emotionally charged lyrics, unique soundscapes, and introspective storytelling, Echo Lights brings listeners even deeper into his world with a body of work that explores mental health, spiritual expansion, and the intricacies of the human experience. This is technically his fifth studio album but his third while using his voice.

“This album is about the things we feel but can’t always say,” Echo Lights shares. “It’s the thoughts that sit with you in silence—the ones that echo.”

As a self-taught composer, producer, and performer, Echo Lights continues to defy convention. Every beat, verse, and chorus on Unspoken was written, produced, and recorded by the artist himself at Echo Lights Studios, his creative hub. He is currently constructing a small commercial studio at his residence, with plans to offer services including music video production, photography, artist management, and more under his growing brand.

The name Echo Lights itself is rooted in a scientific phenomenon known as “light echoes”—light reflected from distant surfaces that arrives with a delay. It’s a metaphor for his subliminal, cryptic lyrics—the kind that takes time to resonate but linger in the listener’s mind long after the track ends.

Following his live debut last year, fans can look forward to at least two live performances this year in Columbus, OH. With a loyal and fast-growing fanbase, Echo Lights is cementing his place as a powerful voice in the independent music scene.

Unspoken will be available on April 30th, 2025, on all major streaming platforms.
