

GrainStore Pro Helps Farmers Get a Higher Profit Margin

Provides unique grain storage technology that minimizes post-harvest loss

Canora, Saskatchewan Apr 21, 2025 ([IssueWire.com](https://www.issuewire.com)) - Simple Farm Apps Inc., an innovator in agricultural technology, leverages GrainStore Pro, a grain storage management app, to help farmers monitor and control stored grain conditions to increase market advantage.

Poor or inefficient storage will quickly diminish grain quality and market value, leading to problems like mold, pests, moisture, and spoilage etc. To protect the farmer's investment, GrainStore Pro has the monitoring and management systems in place to ensure the grain has proper storage and high quality.

GrainStore Pro enables farmers to use their mobile devices to:

- Check temperature, moisture, and air quality
- Optimize and maintain ideal storage conditions
- Increase grain management efficiency utilizing intelligent grain flow in real time
- Make real-time adjustments

With these advanced features of GrainStore Pro, farmers gain complete control of their storage conditions in order to preserve better grain quality and minimize waste.

"Grain storage needs precision, efficiency, and reliability. GrainStore Pro has completely altered the way farmers manage and monitor their grain inventory," says Braden, Simple Farm Apps founder and CEO. "We help them optimize storage conditions, while also minimizing any waste possibility from spoilage. Our application aims to improve productivity while reducing storage and operational costs."

The GrainStore Pro farm management app is available on both [the Google Play Store](https://play.google.com/store/apps/details?id=com.simplefarmapps) and [Apple App Store](https://apps.apple.com/ca/app/grainstore-pro/id1544444444). Farmers can explore its features through a free trial and subscribe to plans according to their needs.
