

Green Shine Industries Corp Expands Globally to Meet Surging Demand for Premium Food Commodities

With sourcing hubs in the USA, Dubai, India, and Latin America, the company delivers top-quality seafood, rice, sugar, edible oils, and frozen produce at competitive prices with world-class service.

Coral Gables, Florida Apr 29, 2025 ([Issuewire.com](https://www.issuewire.com)) - Green Shine Industries Corp Expands Global Reach with Premium Commodities

Leading exporter of seafood, rice, sugar, edible oils, and frozen fruits targets new international markets

Green Shine Industries Corp, a U.S.-based supplier of premium food commodities, today announced a major push into new international markets. The company is extending its operational footprint across the United States, the Middle East, India, and Latin America to reach a broader global clientele. This expansion comes amid robust worldwide demand for high-quality food ingredients: for example, the global frozen fruits market alone was valued at **\$4.56 billion in 2024**[grandviewresearch.com](https://www.grandviewresearch.com), and USDA forecasts show record-setting world rice production (535.8 million tons) and near-record trade levels (59.7 million tons) for 2024/25[ers.usda.gov](https://www.ers.usda.gov). By tapping into these growth trends, Green Shine is positioning itself to deliver superior products at highly competitive prices and first-class service.

- **Seafood:** Premium shrimp, fish, and other seafood sourced sustainably from Asia and Latin America, processed to meet strict quality and safety standards.
- **Rice & Grains:** High-grade long-grain, Jasmine, and Basmati rice from Asia and Indian producers.
- **Sugar:** Refined and raw sugar meeting ICUMSA 150/45 quality specifications for consistent whiteness and purity.
- **Edible Oils:** Quality vegetable, palm, and soybean oils produced to exacting food-grade specifications for global markets.
- **Frozen Fruits & Vegetables:** IQF (Individually Quick Frozen) produce – berries, mango, peas, and more – harvested at peak ripeness. These frozen goods help serve year-round demand (frozen fruits are part of the **\$4.56 billion** global market and retain flavor and nutrients for foodservice and retail customers).

With a presence in key trade hubs and partnerships with factory plants – the United States (North America), Dubai (Middle East), India (South Asia), and São Paulo (Latin America) – Green Shine ensures reliable sourcing and efficient logistics. Bulk purchasing and optimized shipping across these regions allow Green Shine to achieve economies of scale, translating into **competitive pricing** without sacrificing quality. By aligning sourcing in Latin America (a major sugar and produce region) with demand in Asia and the Middle East, the company keeps costs low for customers.

Green Shine's global reach is matched by a steadfast commitment to **excellent service**. The

company's team manages end-to-end export processes – from quality inspection to shipping and delivery – for every order. Its clients include international wholesalers and food distributors as well as hospitality partners like cruise lines and hotel chains. These customers rely on Green Shine for a consistent supply of premium ingredients; in turn, Green Shine tailors its support (including flexible ordering and responsive customer service) to each client's needs.

Green Shine Industries Corp is ready to serve new markets with energy and professionalism. As global demand for premium food commodities grows, the company's expanded international operations ensure partners worldwide can access top-tier products, outstanding value, and reliable service.

About Green Shine Industries Corp: Green Shine Industries Corp is a privately held exporter of food commodities. The company sources premium seafood, grains, sugars, oil, and frozen produce from leading production regions and delivers them worldwide. Green Shine's mission is to provide the highest quality products at competitive prices with exceptional customer service and integrity.
