

Has the Real Illuminati been Located? A Phoenix Christian Author Hits a Nerve with Globalists.

The illuminati has illuminated itself, and stepped forward to make its presence known, in response to a Phoenix based Christian author and legal scholar's book.

THE GREAT ARROGATION

WHY AMERICA IS NOT A PARTY TO
THE BATTLE OF ARMAGEDDON

R.C. CAUDILL

Phoenix, Arizona Apr 17, 2025 ([IssueWire.com](https://www.IssueWire.com)) - A Phoenix Christian author and legal scholar, R.C. Caudill (short for Richard C. Caudill), seems to have hit a nerve with the globalist powers that be by exposing the real Illuminati. Yes, you read that right.

In R.C. Caudill's Amazon chart topping March 2024 release, *The Great Arrogation: Why America is Not a Party to the Battle of Armageddon*, R.C. made a host of accurate predictions that have recently been fulfilled. One such prediction in the religious work is China being on track to lead the race in Artificial Intelligence. Numerous sources have claimed China fulfilled this with its release of DeepSeek AI.

However, R.C. also provided a detailed history of the Illuminati within the book, its goals for world domination, and its communist oriented agenda. After a copy of R.C.'s work was recently sold in Germany via the Amazon Kindle Platform (on February 20, 2025), the same nation that hosts the location of the Illuminati's regular meeting place, R.C. has faced some unwanted perils. Among these perils include a host of self-proclaimed "state investigators" visiting rural Eastern KY, the place that R.C. originated from.

After the copy of R.C.'s book was recently sold in Germany, R.C. has also had the book pulled from the Barnes and Noble bookstore, and had stock removed from some international book stores. R.C. takes this as a sign that the book has served its purpose--shining a light into the notorious group and spreading awareness regarding its dark intentions.

R.C.'s *The Great Arrogation: Why America is Not a Party to the Battle of Armageddon* currently remains available at Amazon.com and other international bookstores, but fears the work may not remain available at any major bookstore for much longer, due to recent events.

R.C. puts forward that he has only exercised his First Amendment rights (freedom of religion) in authoring the book, but did not wish to stir up the famous shadowy group, which has been at the center of controversy and in the social media spotlight in recent years.

A link to purchase *The Great Arrogation: Why America is Not a Party to the Battle of Armageddon* is available below (R.C. may also be contacted directly at rcharlescaudill@gmail.com should Amazon subsequently stop selling the work).
