

India's OurSelfStudy Launches Nation's First AI Academic Assistant for K12 Students

Revolutionizing education through AI-powered academic support for students, parents, and teachers.

Bengaluru, Karnataka Apr 7, 2025 ([IssueWire.com](https://www.issuewire.com)) - Indian EdTech is making waves in the artificial intelligence space. OurSelfStudy, a rising player in this domain, has introduced the [AI Academic Assistant](#) – a groundbreaking platform offering 24x7 academic support for students of grades 7 to 12.

Launched in January 2025, this AI-driven solution is the **Nation's First** and **World's Most Convenient AI Academic Assistant** tailored for the **K12 segment**. It provides doubt clarification and concept reinforcement in **Biology and Science subjects**, accessible anytime via website and even **WhatsApp**.

The [AI Doubt Clearing Agent](#) is built to support:

- **Students:** Reinforces concepts and builds academic skills.
- **Parents:** Offers guidance for their children's learning journey.
- **Teachers:** Assists with repetitive classroom tasks.

Key features include:

- Visual question recognition and answers via text.
- Multilingual support (English, Hindi, Kannada, Telugu).
- Web and mobile access.
- Controlled academic focus to avoid distractions.

Notable services:

- **Spelling & Grammar Check** in multiple languages.
- **Learning Companion (Science)** to promote critical thinking.
- **Review Writing** support for essays, emails, and more.
- **Code Review** for students studying IT or Computer Science.
- **Higher Education Guidance** for grades X and XII.

Many schools and colleges have shown interest in this tool for after school academic support. OurSelfStudy is proving that [AI for education](#) is not just a buzzword—it's real, effective, and transforming how India learns.
