Ahmedabad, Gujarat Apr 29, 2025 ([Issuewire.com](https://www.issuewire.com)) - iRealty247.com, a leading digital real estate platform, is proud to announce the launch of BrokerHub mobile app (iOS and Android) by iRealty247, a state-of-the-art platform designed specifically for real estate brokers. BrokerHub is an all-in-one solution aimed at transforming how brokers manage their listings, relationships, and day-to-day business operations. The platform offers powerful features to boost real estate business productivity, enhance collaboration, and provide real-time insights into the real estate market.

Key Features of BrokerHub for Real Estate Brokers:

- Real-time Property Listing Management: Effortlessly manage property listings, track updates, and

synchronize them across multiple platforms.

- Client Relationship Management (CRM) Tools: Efficiently track and manage leads, communications, and activities to foster strong relationships with buyers and sellers.
- Advanced Real Estate Analytics and Reporting: Gain in-depth market insights, sales performance metrics, and detailed reports to make informed decisions.
- Collaboration Tools for Real Estate Teams: Collaborate with colleagues, clients, and external stakeholders to streamline transactions and close deals faster.

“At iRealty247.com, our goal is to empower real estate professionals with the best tools available,” said Mr. Rawal, Co-founder of iRealty247.com. “BrokerHub is designed to simplify the workflow for brokers, helping them stay organized, reduce administrative work, and focus on what truly matters—growing their business and connecting with clients.”

Mr. Shah, a broker at Riddhi Properties, praised the platform, stating:

“BrokerHub has truly transformed how I manage my property listings and engage with clients. The ease of use and robust tools have significantly improved my productivity. Now, I can focus more on growing my business and less on administrative tasks. It’s an absolute game-changer for real estate brokers like me!”
