

Kcloud Technologies Recognized as Salesforce Managed Services Provider – Delivering Consistent, Scalable CRM Excellence

New milestone marks Kcloud's commitment to offering end-to-end Salesforce support, driving continuous optimization, and ensuring long-term success for clients.

San Diego, California Apr 15, 2025 ([IssueWire.com](https://www.issuewire.com)) - Kcloud Technologies, a trusted Salesforce Crest Consulting Partner, is proud to announce its official recognition as a Salesforce Managed Services Provider (MSP). This significant milestone highlights Kcloud's continued growth and commitment to delivering strategic, long-term value through Salesforce.

With this recognition, Kcloud is now equipped to provide clients with comprehensive, ongoing Salesforce support, ensuring smooth operations, optimization, and innovation at every stage of the CRM journey. Services under the [Salesforce Managed Services Provider](#) model include:

Administration & System Monitoring

Release & Change Management

Development & Custom Integrations

Advanced Analytics & Reporting

App Management & Enhancements

Divya Chauhan, Director at Kcloud Technologies, shared,

“Becoming a Salesforce MSP reaffirms our role as a reliable and forward-thinking partner. We’re here to ensure our clients experience seamless, scalable success with Salesforce—not just during implementation, but every step of the way.”

This announcement comes at a time when businesses are increasingly seeking dedicated support partners who can proactively manage, optimize, and scale their CRM platforms. Kcloud’s approach focuses on delivering tailored solutions, continuous improvement, and measurable outcomes.

Kcloud continues to empower businesses across industries with customer-first strategies, a focus on operational efficiency, and a vision for ongoing growth within the Salesforce ecosystem.
