## Getting Car Servicing Done

If you living in or near Newcastle upon Tyne and looking for a trusted place to get your car servicing done, then A&M Motors might be the best place for you to choose. They offer 3 different types of services for your car. These are the services you are offered here:

- **Interim service:** Get the basic components of your car checked through this service to ensure that the various basic components of your car are working properly. You are advised to get this service done after every 6000 miles or after 6 months. A total of 60 components are checked under this service and some of them are- Suspension, Lights, Steering, Brake fluid, Exhaust system, and many more.
- **Full service:** The experts at A&M Motors advise car owners to get a full service in every 12,000 miles or 12 months. There are a total of 77 checks made in this service which includes some important components like the coolant system, Battery, Braking system, Radiator and coolant pipes, Wheels, and many other parts.
- **Major service:** Next up is the major or thorough service of your car, in which 85+ components are checked. This includes- Electrical systems, such as lights, Exhaust system, Battery, Coolant system, and many more. The car owners are advised to get a major car servicing done after every 24,000 miles or 24 months.
