

MedBetterHealth Selects Pines Home Health Care as a Strategic Partner for the CMS GUIDE Model

Davie, Florida Apr 1, 2025 ([Issuewire.com](https://www.issuewire.com)) - [MedBetterHealth.org](https://www.MedBetterHealth.org), a leading provider of home-based healthcare solutions, is proud to announce its partnership with Pines Home Health Care as part of the [Centers for Medicare & Medicaid Services](#) (CMS) GUIDE Model. This collaboration aims to enhance care for dementia patients by expanding access to in-home services, caregiver support, and respite care.

The CMS GUIDE (Guiding an Improved Dementia Experience) Model is an innovative, eight-year initiative designed to improve the quality of life for people living with dementia and their caregivers by providing coordinated, comprehensive, and patient-centered care. MedBetterHealth, one of a select group of organizations chosen for this prestigious program, has strategically partnered with Pines Home Health Care to extend its reach and impact within the community.

"We are excited to welcome [PINES HOME HEALTH CARE SERVICES INC](#) as a valued partner in delivering high-quality, compassionate care to individuals and families affected by dementia," said Dr. Erik Ilyayev, CEO of MedBetterHealth. "Their dedication to patient-centered home care aligns with our mission to transform dementia care through innovative and accessible healthcare solutions."

Through this partnership, Pines Home Health Care will play a critical role in providing respite care services for family caregivers, ensuring that dementia patients receive continued, high-quality support at home. MedBetterHealth will oversee care coordination, ensuring patients enrolled in the GUIDE Model receive comprehensive services tailored to their needs.

"Joining forces with MedBetterHealth allows us to be at the forefront of dementia care transformation," said Lydia Tablada Aguinaldo of Pines Home Health Care. "We are committed to supporting families with high-quality home health services, and this partnership enables us to make a lasting impact on the lives of those affected by dementia."

The GUIDE Model emphasizes care coordination, education, and support for caregivers, ultimately reducing hospitalizations and enhancing the well-being of dementia patients. With Pines Home Health Care's expertise in home-based services, MedBetterHealth continues its commitment to improving healthcare delivery and expanding support for patients in need.
