

MGIS Partners with MYSTiQUE AI to Transform Sales and Underwriting Operations

Salt Lake City, Utah Apr 22, 2025 ([Issuewire.com](https://www.issuewire.com)) - *MGIS*, a specialized national insurance program manager focused on doctors, today announced a strategic partnership with *MYSTiQUE AI*, an innovator in vertical Agentic AI solutions for the insurance industry. This collaboration aims to enhance sales and underwriting operations through the deployment of advanced AI technologies.

The partnership will enable MGIS to integrate MYSTiQUE AI's Agentic AI platform into its core processes, streamlining underwriting workflows and equipping sales teams with intelligent, data-driven insights. The result: increased speed, accuracy, and scalability in how MGIS serves its clients and distribution partners.

"At MGIS, we are always looking for innovative ways to elevate our service and operational effectiveness," said **Jeff Brunken**, President of MGIS. "Partnering with MYSTiQUE AI marks a key milestone in our digital transformation journey, allowing us to deliver even greater value with speed and precision."

MYSTiQUE AI's autonomous agents and intelligent orchestration capabilities will help MGIS refine its policy quotation, marketing, and underwriting functions. AI-powered insights will also empower sales teams to identify growth opportunities, personalize outreach, and accelerate revenue.

"We are proud to welcome MGIS as a customer and partner in our mission to bring Agentic AI to the forefront of insurance innovation," said **Mayur Rathore**, President of MYSTiQUE AI. "Our platform is purpose-built to tackle the real operational challenges faced by Insurance Program Managers like MGIS—enabling smarter decision-making, faster processing, and scalable growth."

This collaboration represents a shared commitment to innovation and positions both organizations at the forefront of AI adoption in insurance. MGIS clients and brokers can expect faster, more accurate, and seamless interactions as the partnership moves forward.
